PERSONAL AND CONFIDENTIAL

Dear Sir:

Re: SPECIAL AGENT CHARLES H. STANLEY
SPECIAL EFFICIENCY REPORT

This Agent entered on duty on June 26, 1939. He has been assigned to the Oklahoma City and Philadelphia Offices. He was transferred to the New York District on August 7, 1940.

This Agent presents a satisfactory appearance. He is inclined to be somewhat youthful, but it is believed that with additional experience as a Special Agent he will mature satisfactorily.

For some time he has been assigned to surveillances in the Ducase, and he has handled this work in a satisfactory manner. He has a good background knowledge of the Bureau's work, and is a willing, conscientious, and loyal employee. He was previously employed in a clerical capacity in the Bureau. I believe that with additional experience he will continue to develop as a Good Special Agent.

Insofar as his work has been entirely satisfactory in connection with his assignments in National Defense matters, I would rate him as a good Special Agent who is developing satisfactorily. RECORDED

Re: Special Agent C. H. Stanley
Special Efficiency Report

Dear Sir:

This Agent is presently assigned to the Major Case Squad in the New York Field Division and previously had been assigned to the investigative squad handling the investigation of the Ducase.

This Agent dresses in good taste, makes a favorable impression as a representative of the Bureau and has a good personality. He is possessed of a good knowledge of the Bureau's work and has a good knowledge of the contents of the various Manuals of the Bureau.

He has displayed initiative and originality in connection with the investigative assignments given him. His judgment has been good and he works with a minimum amount of supervision. His paper work is in good order and he dictates well. He is very enthusiastic in his work and an entirely loyal employee of the Bureau.

This Agent took an active part in the investigation of the case entitled KURT FREDERICK LUDWIG with aliases, et al, Espionage G, and was likewise active in assisting the United States Attorney during the course of the trial of this case. Mr. Mathias F. Correa, the United States Attorney, has indicated his appreciation for the services rendered by this Agent in connection with the preparation of the case for trial, as well as in the assistance rendered by this Agent during the course of the trial of this case.

This Agent has been active in the course of the investigations pertaining to the Ducase and other Espionage cases, and it is felt that he is well qualified to handle cases of this type.

MEMORANDUM FOR MR. NICHOLS

I called Mr. Foxworth with reference to the work done by Special Agents in the Ludwig case and then talked with Mr. Donegan and asked him to confer with Mr. Foxworth and ascertain to whom congratulatory letters should be written. He was furnished a list of the names which appear in the letter from U. S. Attorney Correa. Mr. Donegan later called me back and advised it was recommended by Mr. Foxworth that the following be written: Special Agents ~~McSwain~~, ~~Abrant~~, ~~Levy~~, ~~Stanley~~, ~~Grantham~~, ~~Rice~~, ~~McKinney~~, ~~Sizoo~~ and ~~Appel~~.

He stated that the activities of the others mentioned in Mr. Correa's letter were so limited and there were so many other Agents throughout the country who did just as much work and as good work that there was no way of determining to whom letters should be sent. The above Agents did outstanding work and played especially important parts in the case.

RECOMMENDATION. It is recommended that the attached letters to the above Special Agents go forward and also that Mr. ~~Donegan~~ who supervised the case at New York together with Mr. ~~Little~~ who supervised the case here at the Seat of Government be written, as well as Mr. Foxworth.

You will recall that previously deferment was requested for him and as a result thereof, he was placed in a deferred status.

INSTRUCTIONS: This form is to be filled out by an employer or other person who has knowledge of the registrant's eligibility for Class II deferment as a necessary man in his civilian occupation or activity. If the registrant is deferred, the employer must notify the Local Board promptly of any change in the registrant's job status, or if his employment is terminated.

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. This Bureau has also been designated by Congress as the agency officially responsible for the tabulation and dissemination of police statistics for the entire country. Under an act of Congress these statistics are gathered and are distributed to thousands of interested police and affiliated agencies every six months so that trends in crime, crime records, and crime control can be known to those to whom it is of most interest. Further than this, the Federal Bureau of Investigation has been designated as the agency having jurisdiction over the classification and maintenance of fingerprint records not only on a national basis but on an international basis. The greatest depository of fingerprint records in the world is maintained by the Federal Bureau of Investigation in Washington, D. C. We have over fifty-eight million sets of fingerprints on hand today and are receiving fingerprint records at a rate of approximately 115,000 each day. The military and naval authorities have issued orders that all employees of manufacturing plants operating under contracts with the War Department or Navy Department must be fingerprinted and their fingerprints sent to the Federal Bureau of Investigation for search against our existing files. Obviously the purpose of such an order is to ascertain the criminal background, if any, of persons who are occupying positions where they have access to confidential information and to eliminate from such positions those persons whose records indicate that their interests are not those of our government.

We are also receiving fingerprint records of all persons enlisting or being inducted into the army and other military and naval services. All employees of the Federal government are fingerprinted and their fingerprints searched through our files for prior criminal records, again for the purpose of guarding against the employment of persons in the Federal government whose backgrounds indicate that they might not function to the best interests of our government. We are receiving thousands of criminal fingerprints from all police agencies throughout the country and it is essential that these fingerprints be handled promptly and the contributing agency advised of any prior record so that justice may be intelligently administered. By means of this procedure the Federal Bureau of Investigation is able to identify thousands of fugitives from justice each year who otherwise might not be identified by local police agencies who do not have the benefit of prior criminal records as reflected on fingerprint cards which were made at the time of some previous arrest. Many such persons are wanted for a previous criminal act by some other law enforcement agency and are presently attempting to disguise their true identity through assuming a fictitious name. This ruse on their part is penetrated through the science of fingerprinting and the Federal Bureau of Investigation is enabled to advise the interested local law enforcement agency of the true identity of the individual and he can be held for appropriate prosecutive action, whereas if not identified, he quite possibly would have been released to continue his depredations against society.

Our criminological laboratory handles the scientific examination of evidence in cases investigated by the Federal and local law enforcement agencies. A very high percentage of the work presently being performed by the Technical Laboratory is in connection with the national war effort. Evidence collected in suspected sabotage cases is examined by the scientists in our laboratory who are qualified to handle examinations of almost any technical nature. The personnel in the Technical

Laboratory have been trained through education and experience to handle such subjects as analytical chemistry, qualitative and quantitative analysis, ballistics tests, microanalysis examinations, spectrographic examinations, cryptograph and cryptanalysis work, and many other highly technical examinations.

The Files Section of the Federal Bureau of Investigation contains files on hundreds of thousands of individuals whose activities are of the greatest importance to the country today. It is highly important that we maintain in the Files Section a nucleus of experienced personnel so that the information contained therein can be made readily available to the supervisory personnel of this Bureau and also be made available to other governmental agencies such as the State Department, Military Intelligence Division, Office of Naval Intelligence, and the Immigration and Naturalization service. It is most essential that only the most trusted employees be assigned to this work because of the highly confidential material that is contained in our files.

All of the functions of the Federal Bureau of Investigation are so closely inter-related that it is essential that qualified and experienced personnel be available not only to perform their own work but to train new employees. The Congress of the United States has passed several bills within the past year approving an increase in the personnel. When it is considered that the work of this Bureau is highly confidential it can be appreciated that the selection of personnel must be made with great care. It has been our experience that only one employee is obtained from every one hundred persons who have applied. It is necessary that each employee be investigated thoroughly so that there will be no possibility of having a person in our service who is not loyal to the United States. We have found that it is extremely difficult to secure qualified persons for almost any of the positions that are available. At the present time we have approximately 1,500 employees less than the number that has been authorized by Congress. Every effort is being made to obtain these additional employees as they are badly needed in order for us to properly carry on the work that has been assigned to us. We are endeavoring to obtain these additional persons without interfering in any way with the administration of the Selective Training and Service Act. In all positions where possible we are utilizing the services of female employees. With the exception of Special Agents' and Laboratory Scientists' positions, no appointment of male employees who may be eligible for military service are being made. It is absolutely necessary, however, that our experienced personnel be maintained so that the new personnel can be adequately supervised and trained.

All employees of the Federal Bureau of Investigation have been working at top speed to keep abreast of our duties. The regular work week has been extended to 48 hours, and it has been our experience in the past that an additional amount of overtime will be voluntarily performed by the employees of this Bureau in an effort to properly and expeditiously handle the tremendous volume of important work being referred to us in connection with the war effort. Obviously very little consideration can be given to replacing an experienced employee until such time as we are able to build up our present staff to the number authorized and needed.

Special Agents of the Federal Bureau of Investigation are given twelve weeks of training which embraces 535 hours of study. During that period of time they are trained not only in investigative techniques and procedures, but are qualified in the handling of firearms, mechanical devices, and technical devices in use by the Bureau. After entering the Field service which follows their training period, their skill of course increases with their length of service in the Field. It would

obviously, therefore, be impossible to adequately replace an experienced Special Agent until the replacement had been in the service an equal length of time.

The science of the classification of fingerprints is one of the most exacting in the world today. Employees in law enforcement organizations handling fingerprint activities are of a profession which demands the utmost skill and honesty in the practice of that profession. In the Federal Bureau of Investigation we train Fingerprint Technicians through classroom and practical study for a period of approximately six months. At the end of that time those employees are qualified to examine sets of fingerprints and to identify like sets. This science cannot be taught overnight and the loss of a fingerprint man at any stage of his training or employment is a severe blow to the Federal Bureau of Investigation at this time when we are receiving thousands of sets of prints from all of the coordinated activities of the Government and from local law enforcement agencies.

The Laboratory Scientists of the Federal Bureau of Investigation, all graduate scientists, are thoroughly schooled in the science of criminology and today are performing duties pertaining to the successful war effort one hundred percent of their time. Their training in this field, embracing all sciences of laboratory examination which includes cryptography, chemistry, ballistics, geology, serology, and many others, has been invaluable in the solving of espionage, sabotage, and other subversive activities. It is essential that these scientists many times perform their scientific work in the field under such conditions that they could not be replaced with employees not possessing their physical attributes.

Bureau employees in positions aforementioned and for whom deferments are requested possess technical and scientific skills which renders them irreplaceable to the Federal Bureau of Investigation at this time.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Charles H. Stanley, Special Agent

Annual Efficiency Report

This agent entered on duty at the Bureau on June 26, 1939, and at the New York Office on August 7, 1940.

Agent Stanley is clean cut, dresses in good taste, and makes a good appearance on behalf of this Bureau. Agent Stanley exhibits interest in his work, is resourceful, has initiative, and has been found to be wholly trustworthy and reliable. This agent, in a recent inspection of the New York Office, received a grade of 99% in the Manual of Rules and Regulations and a grade of 95% in the Manual of Instructions and National Defense Manual, indicating he has a good knowledge of the Bureau's work.

This agent is good in his dictation and has his facts well at hand. He is a good automobile driver. This agent is experienced in testifying in Court. During the pertinent period he testified in the case entitled GEORGE JOHN DASCH, with aliases, et al; ESPIONAGE; SABOTAGE - C, before the Military Commission in Washington, D. C. He handled this assignment in a capable manner. He is also experienced in testifying from his work in the case entitled KURT FREDERICK LUDWIG, with aliases, et al; ESPIONAGE - C. This agent assisted in the apprehension of HEINRICH HARM HEINCK, one of the eight saboteurs, and handled this assignment in a competent manner.

Agent Stanley is qualified in the use of all Bureau firearms. His ability to handle the Bureau's various weapons is satisfactory. He is attentive, alert, observes all safety precautions, and is physically and temperamentally capable of handling dangerous assignments in a manner reflecting credit to the Bureau.

Agent Stanley is thoroughly experienced with the handling of physical surveillances. He definitely has above average ability in this regard. This agent uses the touch system on the typewriter at a speed of approximately forty words per minute. He uses shorthand at the rate of approximately one hundred words per minute. Agent Stanley is very good in his report writing. His reports indicate thoroughness in his investigations and he has them well organized.

This agent, due to the nature of his work during the pertinent period, has had little contact with law enforcement officials. His other contacts have indicated he makes a good impression as a representative of this Bureau. Agent Stanley definitely has ability to organize and initiate investigations. He exhibits originality in connection with the same. 52

Charles H. Stanley, Special Agent

This agent has been exclusively assigned to the Special Espionage Case Desk and his work has been relative to espionage, internal security matters, and treason. This agent did very good work in connection with the GEORGE JOHN DASCH, with aliases, et al; ESPIONAGE; SABOTAGE - G case. He has handled the KURT FREDERICK LUDWIG investigation and is presently handling the remnants of the same. His work in this regard is definitely above the average. Agent Stanley has demonstrated he has potential supervisory and administrative ability.

This agent's daily average overtime is 3 hours and 24 minutes, while that of the New York Office is 2 hours and 55 minutes.

This agent is of the opinion that if the Bureau desires to utilize his services in an SIS assignment he would feel it his duty to accept the same. His wife concurs in his opinion. He is married but has no children. This agent has no training in foreign languages. He has an LL.B. degree from the Columbus University Law School, Washington, D. C. He has had unlimited experience in espionage investigations and it is believed he would handle an SIS assignment competently. However, it is believed his commitments in the United States should be considered.

I consider Agent Stanley a very good employee.

I spoke to the above-mentioned Special Agent during his attendance at the National Defense Supervisors School.

I discussed with Stanley his assignments and ascertained that he is sort of a relief administrative Agent in the New York Office. Stanley has a good background in the cases handled by him and has a good background generally of the internal security set-up in New York City. I would not at this time recommend him for a supervisory position entailing the supervision of any large number of Agents. He needs more maturity of action, is still a bit nervous and jumpy and probably would transmit such nervousness to any group of Agents whom he was supervising.

There appears to be no reason why he cannot be continued in his present assignment in the Internal Security Section of the New York Office. There is no doubt in my mind as to his loyalty to the Director and his personal ability to handle any case to which we might assign him. I believe he can further develop in the service.

Respectfully,

W. R. Glavin

SPECIAL AGENTS

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. The investigative work in connection with the above violations is performed by the Special Agent personnel of this Bureau, who are recruited from applicants between the ages of twenty-three and forty. They must be graduates of a law school or an accounting school with the necessary accounting experience, or graduates of a university with extensive investigative experience, or with linguistic qualifications, or have basic educational training and possess satisfactory prior law enforcement experience which will enable them to satisfactorily perform the duties imposed upon them. For certain of the scientific investigative work, Special Agents are secured who primarily are qualified in the sciences, such as ballistics, chemical analysis, spectography, cryptography, mineralogy, metallography, toxicology, and other like sciences. Applicants for appointment to the position of Special Agent must meet the physical standards and requirements for this position, which are exceedingly high. They must have vision of no less than 20/40 in one eye, 20/50 uncorrected, both eyes to be corrected to 20/20. They must have no color deficiency whatever.

Special Agents of the Federal Bureau of Investigation undergo a rigorous training program. All newly appointed Special Agents in the Federal Bureau of Investigation attend training classes for a period of sixteen weeks; the hours of training are from 9:00 a.m. to 9:00 p.m. daily, which course of study is equivalent to two full years of college study. During this period of training, they are thoroughly instructed in the basic rules and regulations and jurisdictions of the Federal Bureau of Investigation. They must satisfactorily pass numerous written examinations during their period of training. If a trainee fails to pass any of these examinations, he is dropped from the school.

The duties of a Special Agent of the Federal Bureau of Investigation are most arduous. They must be available at a moment's notice to go to any part of the United States or to any assignment outside the United States. The hours of duty for these employees are such that they must be in excellent physical health. The average work week for a Special Agent of the Federal Bureau of Investigation is no less than seventy hours. The work of a Special Agent, regardless of his particular qualification, is such that he cannot lead a sedentary or well regulated life. Due to the small number of Special Agents of the Federal Bureau of Investigation presently handling the work under the jurisdiction of the Federal Bureau of Investigation within and without the continental United States, it is necessary that the entire staff be highly mobile.

Special Agents are required to be able to conduct investigations in more than 100 types of cases, including espionage, sabotage, subversive activities, frauds against the government, kidnaping, extortion, bank robbery, White Slave

Traffic Act, etc. They are trained in and required to maintain constant skill in the use of highly technical equipment, technical processes, such as those necessary for the development of latent fingerprints, concealed or obliterated numbers upon firearms, to understand the use of code messages, to conduct physical surveillances of subjects of espionage and similar cases, sometimes for periods of many months, and when necessary, to assume a necessary character to enable them to fit in an undercover capacity into the activities and operations of groups such as foreign agents, who are engaged in thwarting the war effort.

The arduousness and importance of the work of Special Agents of the Federal Bureau of Investigation was readily recognized by the military and naval leaders. The Chief of the Bureau of Navigation, for the Secretary of the Navy, requested Special Agent employees of the Federal Bureau of Investigation to submit their resignations from reserve commissions held by them in the naval services because it had been determined that those Special Agents could better serve their country in their present assignments than if they were to be called into active naval service. The Secretary of War, in 1942, addressed personal communications to 168 Special Agents of the Federal Bureau of Investigation who at that time held reserve commissions in the Army. The Secretary of War at that time advised the Special Agents that their employment in the FBI is of such vital importance to the national defense as to necessitate their remaining at their posts of duty despite the fact that they held reserve commissions in the United States Army, and the request was made that these Agents, through the proper channels, submit their resignations from their commissions.

General Lewis B. Hershey of the Selective Service System pointed out in his Directive to all Local Boards of December 29, 1941, that Special Agent positions of the FBI were most important and essential to the national health, safety, and interests, and that the national defense functions of the FBI should not be impaired by the removal of trained personnel from critical positions in the Bureau.

The position of Special Agent has always been considered the most critical of all positions in the FBI, since, with the tremendous bulk of work placed upon us due to the war emergency, it is essential that a trained qualified staff be available for the handling of this work. If the Federal Bureau of Investigation cannot continue to retain its personnel in this critical position, aid and comfort would most certainly be given to the enemy and others whose interests are inimical to the best interests of the country today. Up to the present time the full complement of Special Agent personnel has not been secured and every effort is being made to secure the necessary additional Special Agent personnel.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

ERNEST FRITZ DETLEV HEINRICH LEHNITZ
was. et al - ESPIONAGE-O

The case entitled ERNEST FRITZ DETLEV HEINRICH LEHNITZ, was; ERNEST HARRY de SPRETTER, ESPIONAGE-O, New York origin, was recently "broken" when Special Agent Roy W. Meadows succeeded in identifying one of the theretofore unknown subjects as Lehnitz and through this, identifying the other unknown subject, de Sprettter. The captioned Assistant Special Agent in Charge who supervised this case and the captioned Agents who performed outstanding work in the investigation are being considered for letters of commendation and Agent Meadows is being considered for a meritorious increase in salary.

This investigation is considered one of the Bureau's most important espionage cases. It has been in progress for almost a year and a half. The case began when the Bureau received information that several letters, dated from February to April, 1942, containing secret writing disclosing important and accurate military information were intercepted. The author of the letters was unknown. The Technical Laboratory determined the make and model of the typewriter used in preparing the letters, and the Agents investigating the case carried pictures of this kind of typewriter with them. The Agents also familiarized themselves with the personal remarks of the letters and memorized the spy's handwriting in an effort to identify the subject. Among other things, the letters indicated that the subject was Ninobitz said warden, that his house has been foreclosed, that he had been extremely sick with pneumonia, and that he had been in Switzerland in the springtime. The Agents checked all New York hospitals for pneumonia patients and they began to check all of the thousands of baggage checks of persons who had entered this country from Europe in the spring of 1941. Agent Mr. Hendon Meadows, in examining the baggage checks, recognized the familiar Mr. McGuire handwriting of the author of the letters and noticed the name Mr. Mumford "Ernest Frederick Lehnitz" who turned out to be one of the subjects. Lehnitz operated a rooming house and one of the Agents

working under cover became a paying tenant there and through their surveillance of Lehnitz they succeeded in identifying de Spretter, who was his accomplice. The trial is expected to begin in the near future.

Mr. Cunningham, by memorandum dated 7-20-43, recommended that Special Agent Meadows, who had examined the baggage tickets which led to the identification of Lehnitz, should be considered for a meritorious increase in salary in addition to a letter of commendation, and he also named the following four Special Agents whose work had been outstanding in this case and who should also be commended: Burton F. Wiant, John G. Willis, Sheldon A. Stanley and Joseph O. Fellner.

By letter dated 7-7-43 SAC Conroy stated that Assistant SAC Donagan had actively supervised the investigation of this case and recommended him for a meritorious increase in salary.

Mr. W. A. Johnson of Division Five, who has been supervising this case at the Seat of Government, gave the following information regarding each of the above-mentioned Agents with respect to their participation in the case. Assistant SAC Donagan supervised the entire case. Agent Wiant assisted in the supervision of this case because he is Supervisor of the Major Case Desk in the New York Office. Agent Meadows was assigned to this case as a "special" and was the Agent who actually "broke" the matter by discovering the baggage check which led to the identification of Lehnitz. Agent Willis was the investigating Agent in charge of the case as a "special." Agents Fellner and Stanley performed a great deal of general investigation work including surveillances in this matter.

The personnel files of all of these Agents have been examined and nothing was noted in any of them which would constitute an objection to sending them letters of commendation.

SUPERVISOR B. F. WLAND:

This agent is mature and experienced in the Bureau's work. He excelled himself in the investigation of the case entitled KURT FREDERICK LUDWIG, with aliases, et al; ESPIONAGE - G, and is presently handling the remnants of this investigation. This agent relieves me on my desk, and he handles this work competently. Agent Stanley is aggressive, a hard worker, and exhibits interest in his work. He is a good investigator, wholly reliable and trustworthy. This agent is very good in his paper work and dictation and handles the same in an orderly manner. He has a good knowledge of the Bureau's work, and it is my opinion that he may have potential administrative ability. Agent Stanley is of tall, slender build, makes a clean cut appearance, dresses neatly, and has a very good personality.

Status: VERY GOOD

FIREARMS INSTRUCTORS: H. G. FOSTER, et al.

On October 29, 1942 this Agent was observed firing the first winter firearms courses. His qualifying score on the rifle was above average. However, he appeared to be above average in his ability to handle the weapons used on the prescribed courses. He was amenable to instructions and observed the safety precautions. It is the opinion of the instructors that this agent can be depended upon in a dangerous situation involving the use of firearms.

INSPECTOR PENNINGTON:

This agent is 30 years of age and married. He is classified in 2-B. Prior to his assignment in New York in August, 1940 he worked at Oklahoma City and Philadelphia. In New York he has been assigned to a number of the major cases and has had experience in testifying in court. This agent is self-confident, presents a good appearance, knows his cases, is friendly, meets people very easily and in my opinion is an excellent field man.

Mr. Stanley is a Special Agent and as such holds a key position as designated by the Review Committee of the War Manpower Commission within the meaning of Executive Order 9309. The performance of his duties is essential and critical to the execution of the work assigned by law and Executive Directive to the Federal Bureau of Investigation.

To the Federal Bureau of Investigation is assigned the responsibility of investigating all acts of espionage, sabotage and all actions tending to undermine the internal security of the nation. We must also investigate and enforce all those federal statutes assigned to the investigative jurisdiction of this Bureau such as: bank robbery, kidnaping, interference with the interstate transportation of goods, National Stolen Property Act, White Slave Traffic Act, etc., the enforcement of which is necessary to the preservation of the national health, safety and interest.

To carry on this work it is necessary to maintain a corps of trained investigators. Mr. Stanley is such a trained investigator. In the attached Form 42 S further information relative to Mr. Stanley is set forth.

SPECIAL AGENTS

This position has been designated as a key position by the Review Committee of the War Manpower Commission.

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. The investigative work in connection with the above violations is performed by the Special Agent personnel of this Bureau, who are recruited from applicants between the ages of twenty-three and forty. They must be graduates of a law school or an accounting school with the necessary accounting experience, or graduates of a university with extensive investigative experience, or with linguistic qualifications, or have basic educational training and possess satisfactory prior law enforcement experience which will enable them to satisfactorily perform the duties imposed upon them. For certain of the scientific investigative work, Special Agents are secured who primarily are qualified in the sciences, such as ballistics, chemical analysis, spectography, cryptography, mineralogy, metallography, toxicology, and other like sciences. Applicants for appointment to the position of Special Agent must meet the physical standards and requirements for this position, which are exceedingly high. They must have vision of no less than 20/40 in one eye, 20/50 uncorrected, both eyes to be corrected to 20/20. They must have no color deficiency whatever.

Special Agents of the Federal Bureau of Investigation undergo a rigorous training program. All newly appointed Special Agents in the Federal Bureau of Investigation attend training classes for a period of sixteen weeks; the hours of training are from 9:00 a.m. to 9:00 p.m. daily, which course of study is equivalent to two full years of college study. During this period of training, they are thoroughly instructed in the basic rules and regulations and jurisdictions of the Federal Bureau of Investigation. They must satisfactorily pass numerous written examinations during their period of training. If a trainee fails to pass any of these examinations, he is dropped from the school.

The duties of a Special Agent of the Federal Bureau of Investigation are most arduous. They must be available at a moment's notice to go to any part of the United States or to any assignment outside the United States. The hours of duty for these employees are such that they must be in excellent physical health. The average work week for a Special Agent of the Federal Bureau of Investigation is no less than seventy hours. The work of a Special Agent, regardless of his particular qualification, is such that he cannot lead a sedentary or well regulated life. Due to the small number of Special Agents of the Federal Bureau of Investigation presently handling the work under the jurisdiction of the Federal Bureau of Investigation within and without the continental United States, it is necessary that the entire staff be highly mobile.

Special Agents are required to be able to conduct investigations in more than 100 types of cases, including espionage, sabotage, subversive activities, frauds against the government, kidnaping, extortion, bank robbery, White Slave

Traffic Act, etc. They are trained in and required to maintain constant skill in the use of highly technical equipment, technical processes, such as those necessary for the development of latent fingerprints, concealed or obliterated numbers upon firearms, to understand the use of code messages, to conduct physical surveillances of subjects of espionage and similar cases, sometimes for periods of many months, and when necessary, to assume a necessary character to enable them to fit in an undercover capacity into the activities and operations of groups such as foreign agents, who are engaged in thwarting the war effort.

The arduousness and importance of the work of Special Agents of the Federal Bureau of Investigation was readily recognized by the military and naval leaders. The Chief of the Bureau of Navigation, for the Secretary of the Navy, requested Special Agent employees of the Federal Bureau of Investigation to submit their resignations from reserve commissions held by them in the naval services because it had been determined that those Special Agents could better serve their country in their present assignments than if they were to be called into active naval service. The Secretary of War, in 1942, addressed personal communications to 168 Special Agents of the Federal Bureau of Investigation who at that time held reserve commissions in the Army. The Secretary of War at that time advised the Special Agents that their employment in the FBI is of such vital importance to the national defense as to necessitate their remaining at their posts of duty despite the fact that they held reserve commissions in the United States Army, and the request was made that these Agents, through the proper channels, submit their resignations from their commissions.

General Lewis B. Hershey of the Selective Service System pointed out in his Directive to all Local Boards of December 29, 1941, that Special Agent positions of the FBI were most important and essential to the national health, safety, and interests, and that the national defense functions of the FBI should not be impaired by the removal of trained personnel from critical positions in the Bureau.

The position of Special Agent has always been considered the most critical of all positions in the FBI, since, with the tremendous bulk of work placed upon us due to the war emergency, it is essential that a trained qualified staff be available for the handling of this work. If the Federal Bureau of Investigation cannot continue to retain its personnel in this critical position, aid and comfort would most certainly be given to the enemy and others whose interests are inimical to the best interests of the country today. Up to the present time the full complement of Special Agent personnel has not been secured and every effort is being made to secure the necessary additional Special Agent personnel.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Honorable Harold H. Kennedy
United States Attorney

Dear Harold:

Thanks very much for your splendid letter of September 27, 1943. It is most encouraging to receive expressions such as yours and they mean that much more when they come from a man who has worked so closely with the personnel of the FBI.

I do want you to know how much we appreciate the wise counsel of you and your able assistants in the handling of the Lehnitz and DeSprenger matter. Through your able leadership the many technical points raised by recent decisions were avoided.

I think that the commendatory letter which I received from the defense counsel was prompted in a large part by the work of your office. It was grand of you to comment as you did concerning the men of the FBI who worked in this case and I certainly will make appropriate notation of your observations.

With best wishes and kind regards,

Sincerely yours,

J. E. Hoover

Director, FBI

Dear Sir:

Reference is made to Bureau personal and ~~confidential~~ letter dated January 19, 1944, No. 12, Series 1944, addressed to All Special Agents in Charge, with regard to the long range program for the development and future selection of Agents for the position of Special Agent in Charge.

The Special Agents whose names are noted below are the Supervisors of the New York City office, who have all been selected after consideration as to their administrative and supervisory ability. It is felt that it would be beneficial to this office, and to the Agents named, to be afforded special training and diversified experience from time to time; that such would also allow an opportunity to better observe their qualifications, with the resultant possibilities of promotion.

Special Agents Jerome Doyle and Jack B. Minor of the SIS Branch of the New York office also are not listed above inasmuch as it is understood that they recently were accorded this special training at the Bureau. If such is not the case, it is suggested that their names also be included.

PERSONAL AND CONFIDENTIAL

Director, FBI

Dear Sir:

Reference is made to Bureau letter dated January 22, 1944, regarding the administrative organization in the New York City Field Division, which requested a new organization set-up of the New York City Field Division, listing the various Supervisors and the classification of work to be supervised by them in the future. Copies of a proposed new organization set-up are being transmitted herewith. The various changes are noted as follows:

Assistant Special Agent in Charge B. F. ~~Wland~~ is replacing Assistant Special Agent in Charge H. M. Kimball, who is under orders of transfer. *oh*

Special Agent J. R. ~~Malley~~ is number one man to Assistant Special Agent in Charge T. J. Donegan, in place of Special Agent B. F. Wland who has been promoted to Assistant Special Agent in Charge. *oh*

Special Agent B. C. ~~Brown~~ has been designated as number one man to Assistant Special Agent in Charge B. F. Wland, in place of Special Agent L. M. Chipman, who has been transferred. *oh*

Special Agent (A) R. J. ~~Lynch~~ has been designated as number one man to Assistant Special Agent in Charge A. H. Crowl, to replace Special Agent E. F. Krich, who is under orders of transfer. *oh*

RECORDED

Special Agent C. H. ~~Stanley~~ is to be designated as Supervisor of Desk #21, handling major cases, Special Agent B. F. Wland, who is promoted to Assistant Special Agent in Charge. Agent Stanley is thoroughly familiar with the cases pending on that desk and in the past has functioned in a satisfactory manner in the absence of Mr. ~~Stanley~~. *144*

be noted that the peak load on this desk was one hundred fifty cases, about October 15, 1943. On January 1, 1944 there were fifty pending cases, and it is anticipated that by February 1st there will be forty pending cases there. It is the plan of the office to reduce to the lowest possible number, which will be approximately twenty, the number of cases on this desk, in order that only the active, important cases will receive this preferred attention.

Highly approved
Special Agent W. T. ~~X~~Marchessault will remain as Supervisor of Desk #19, which principally handles French, Italian and Japanese Espionage and related cases. Desk #22, which has been handled by J. J. Ryan, Supervisor, is to be consolidated with Desk #19. *ok* The cases handled by that desk were principally miscellaneous Espionage and related cases. On January 1st there were 543 cases pending on Desk #19 and 535 cases pending on Desk #22, or a total of 1,078 cases. These cases are somewhat related. The load can be carried by one Supervisor.

Special Agent R. L. ~~X~~Johnson is being designated as temporary Supervisor of Desk #26, which handles special assignment cases (to be handled by Mr. Donegan only in the absence of Mr. E. J. Connelley.) This desk was formerly handled by Special Agent A. E. Ostholtzoff, who has been designated as Supervisor of one of the regular desks in the office. This squad is considered to be of a temporary nature. *WJ*

Special Agent A. E. ~~X~~Ostholtzoff is Supervisor of Desk #10, which handles German Internal Security matters and related cases, in place of Special Agent L. M. Chipman, who was transferred. *ok*

Highly approved
Special Agent J. J. ~~X~~Ryan, who has been Supervisor of Desk #22, which is being consolidated with Desk #19, is to be designated as Supervisor of Desk #16, handling Alien Enemy Control matters, in place of Special Agent E. J. McCabe, who is to be designated as Supervisor of another desk. *ok*

Under review
Special Agent C. C. ~~X~~Nelson, Night Supervisor. This position has been approved by the Bureau for some years past, and has been handled by Agent Nelson for approximately six months. It has never been carried on the organization chart heretofore. It is now set forth to be particularly under Assistant SAC Wiand for administrative purposes. It is being noted that this Supervisor's duties relate more nearly to those matters handled by the Liaison Supervisor than on any other desk in the office. The Liaison desk is under that same Assistant Special Agent in Charge. It may be noted that Agent Nelson attends Supervisors Conferences and acts as secretary, recording the minutes of such conferences.

Director.

*in
agreed
ok*

Special Agent E. J. McCabe is to be designated as Supervisor of Desk #15, the General Investigative desk, in place of Special Agent E. F. Emrich, who is under orders of transfer. It will be noted in connection with the operations of this desk that recently there were transferred to Desk #11, under Special Agent E. J. Charters, Supervisor, Illegal Wearing of Uniform and Impersonation cases, in order to equalize the load on these two desks. This was explained more fully in letter to the Bureau dated January 17, 1944.

7

The Bureau's attention is further directed to the fact that the Training Division and Personnel Guidance Counsellor in accordance with instructions from the Bureau are being still maintained under Desk #27, of which Special Agent R. K. McPhail is Supervisor. It has been pointed out to the Bureau in the past that such relates to the operations of the office as a whole and that these functions might more properly be placed under Special Agent B. C. Brown, Supervisor of Desk #18, the Liaison Squad, which handles matters for the office as a whole. This is merely being called to the Bureau's attention, and no change is contemplated without instructions from the Bureau,

PERSONAL AND CONFIDENTIAL

Mr. E. E. Conroy
Federal Bureau of Investigation

C O P Y

Dear Mr. Conroy:

Receipt is acknowledged of your letter dated January 27, 1944, with which you enclosed an administrative chart for the New York Office. It is observed that you have put into effect the recent changes directed by the Bureau.

With reference to your additional recommendations, authority is given for the designation of Special Agent C. H. Stanley as a Supervisor of the Major Case desk replacing Mr. Wiand, who is now designated as Assistant Special Agent in Charge.

The consolidation of the work previously handled by Supervisor J. J. Ryan and Supervisor W. T. Marchessault is approved as set out in your letter with Supervisor Marchessault handling the consolidated desk. As requested in my letter of January 22, 1944, I desire on or before April 10, 1944 your recommendations with supporting facts concerning the possible consolidation of this desk and the work now handled by Supervisor R. R. Granville.

The designation of Supervisor Ryan to replace Supervisor E. J. McCabe on the desk handling Alien Enemy Control matters is also approved.

You are not authorized, however, to designate Special Agent R. L. Johnson as a Supervisor, even of a temporary nature, on the special assignment cases which you have called Desk #26. It would appear that this work can be handled by Mr. Connelley during his presence in New York City and in his absence by Mr. Donagan. There, of course, is no objection to Mr. Connelley temporarily utilizing the services of Agent Johnson or other qualified agents who might be available for the investigative supervision of these cases. I do not think it is proper, however, to carry such a designation on the administrative chart of the New York Office and in the absence of a specific request from Mr. Connelley, no one is being designated as a Supervisor over this work.

9 FEB 24 1944

Approval is not given for the assignment of Night Supervisor C. C. Nelson to Assistant Special Agent in Charge Wland. Since his work appears to be more of an administrative nature, the Bureau desires that he continue under the general supervision of Assistant Special Agent in Charge Crowl, who handles the administrative matters of a related type in your office. The Bureau will be glad to reconsider your suggestion if more supporting facts can be furnished.

The Bureau approves the designation of Supervisor E. J. McCabe to handle the work previously supervised by Special Agent Krich, who has been transferred from the New York Office, and further approves the assignment of the Illegal Wearing of Uniform and Impersonation cases from this desk to the desk supervised by Special Agent E. J. Charters.

I very definitely desire that the training division and personnel guidance work be continued under the general supervision of Assistant Special Agent in Charge Crowl and Supervisor E. K. McPhail. It is logical that such work, which is administrative in type, should be under Mr. Crowl's direction. I do not agree with you that it is similar to the work handled by your Liaison Squad if the activities of that squad have been properly delimited.

You are to place the above desires into immediate effect and hereafter changes are not to be made in the identity or work of your supervisory and administrative staff without specific prior Bureau authority.

Sincerely yours,

John Edgar Hoover

Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

Mr. Stanley is a Special Agent and as such holds a key position as designated by the Review Committee of the War Manpower Commission within the meaning of Executive Order 9309. The performance of his duties is essential and critical to the execution of the work assigned by law and Executive Directive to the Federal Bureau of Investigation.

To the Federal Bureau of Investigation is assigned the responsibility of investigating all acts of espionage, sabotage and all actions tending to undermine the internal security of the nation. We must also investigate and enforce all those federal statutes assigned to the investigative jurisdiction of this Bureau such as: bank robbery, kidnaping, interference with the interstate transportation of goods, National Stolen Property Act, White Slave Traffic Act, etc., the enforcement of which is necessary to the preservation of the national health, safety, and interest.

To carry on this work it is necessary to maintain a corps of trained investigators. Mr. Stanley is such a trained investigator. In the attached Form 42 3 further information relative to Mr. Stanley is set forth.

SPECIAL AGENTS

This position has been designated as a key position by the Review Committee of the War Manpower Commission.

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. The investigative work in connection with the above violations is performed by the Special Agent personnel of this Bureau, who are recruited from applicants between the ages of twenty-five and forty. They must be graduates of a law school or an accounting school with the necessary accounting experience, or graduates of a university with extensive investigative experience, or with linguistic qualifications, or have basic educational training and possess satisfactory prior law enforcement experience which will enable them to satisfactorily perform the duties imposed upon them. For certain of the scientific investigative work, Special Agents are secured who primarily are qualified in the sciences, such as ballistics, chemical analysis, spectography, cryptography, mineralogy, metallography, toxicology, and other like sciences. Applicants for appointment to the position of Special Agent must meet the physical standards and requirements for this position, which are exceedingly high. They must have vision of no less than 20/40 in one eye, 20/50 uncorrected, both eyes to be corrected to 20/20. They must have no color deficiency whatever.

Special Agents of the Federal Bureau of Investigation undergo a rigorous training program. All newly appointed Special Agents in the Federal Bureau of Investigation attend training classes for a period of sixteen weeks; the hours of training are from 9:00 a.m. to 9:00 p.m. daily, which course of study is equivalent to two full years of college study. During this period of training, they are thoroughly instructed in the basic rules and regulations and jurisdictions of the Federal Bureau of Investigation. They must satisfactorily pass numerous written examinations during their period of training. If a trainee fails to pass any of these examinations, he is dropped from the school.

The duties of a Special Agent of the Federal Bureau of Investigation are most arduous. They must be available at a moment's notice to go to any part of the United States or to any assignment outside the United States. The hours of duty for these employees are such that they must be in excellent physical health. The average work week for a Special Agent of the Federal Bureau of Investigation is no less than seventy hours. The work of a Special Agent, regardless of his particular qualification, is such that he cannot lead a sedentary or well regulated life. Due to the small number of Special Agents of the Federal Bureau of Investigation presently handling the work under the jurisdiction of the Federal Bureau of Investigation within and without the continental United States, it is necessary that the entire staff be highly mobile.

Special Agents are required to be able to conduct investigations in more than 100 types of cases, including espionage, sabotage, subversive activities, frauds against the government, kidnaping, extortion, bank robbery, White Slave

Traffic Act, etc. They are trained in and required to maintain constant skill in the use of highly technical equipment, technical processes, such as those necessary for the development of latent fingerprints, concealed or obliterated numbers upon firearms, to understand the use of code messages, to conduct physical surveillances of subjects of espionage and similar cases, sometimes for periods of many months, and when necessary, to assume a necessary character to enable them to fit in an undercover capacity into the activities and operations of groups such as foreign agents, who are engaged in thwarting the war effort.

The arduousness and importance of the work of Special Agents of the Federal Bureau of Investigation was readily recognized by the military and naval leaders. The Chief of the Bureau of Navigation, for the Secretary of the Navy, requested Special Agent employees of the Federal Bureau of Investigation to submit their resignations from reserve commissions held by them in the naval services because it had been determined that those Special Agents could better serve their country in their present assignments than if they were to be called into active naval service. The Secretary of War, in 1942, addressed personal communications to 168 Special Agents of the Federal Bureau of Investigation who at that time held reserve commissions in the Army. The Secretary of War at that time advised the Special Agent that their employment in the FBI is of such vital importance to the national defense as to necessitate their remaining at their posts of duty despite the fact that they held reserve commissions in the United States Army, and the request was made that these Agents, through the proper channels, submit their resignations from their commissions.

General Lewis B. Hershey of the Selective Service System pointed out in his Directive to all Local Boards of December 29, 1941, that Special Agent positions of the FBI were most important and essential to the national health, safety, and interests, and that the national defense functions of the FBI should not be impaired by the removal of trained personnel from critical positions in the Bureau.

The position of Special Agent has always been considered the most critical of all positions in the FBI, since, with the tremendous bulk of work placed upon us due to the war emergency, it is essential that a trained qualified staff be available for the handling of this work. If the Federal Bureau of Investigation cannot continue to retain its personnel in this critical position, aid and comfort would most certainly be given to the enemy and others whose interests are inimical to the best interests of the country today.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Re: CHARLES H. STANLEY, SPECIAL AGENT;
SPEAKING ABILITY

Dear Sir:

Agent Stanley entered on duty with the Bureau as a Special Agent on June 26, 1939. He was assigned to the Oklahoma City and Philadelphia Field Divisions prior to his transfer to New York on August 7, 1940. He is not a Bureau approved speaker but is presently preparing a manuscript for submission to the Bureau.

Agent Stanley has never had any formal public speaking training nor any previous experience along this line, prior to his appointment with the Bureau.

Agent Stanley participated in the Speech School of the New York Office on December 14, 1944, his topic being "Interesting Bureau Cases Involving Radio Traffic". He presented a neat, mature appearance and has a friendly, likeable personality. He covered his subject well and in an interesting and forceful manner. His diction, choice of words, and rate of speech were highly satisfactory. It was observed that he does not pause cleanly and is prone to inject a number of "ahs" into his presentation. It was further observed that, in answering questions put to him, he had a tendency to give little, if any, information rather than to interpret the question in a manner which would enable him to give further information to the audience. These matters were discussed with him.

Agent Stanley, who is a Supervisor of the New York Field Division, was rated as very good, and, when his manuscript is completed, it will be forwarded to the Bureau for approval.

Very truly yours,

E. E. CONROY

PROPOSED SPEECH SUBMITTED BY
SPECIAL AGENT CHARLES H. STANLEY
New York Field Division

One of the busy phone numbers in Manhattan is Rector 2 - 3515. Many public-minded citizens have dialed this number, the phone number of the New York Office of the F B I. It is because of the cooperation that we have received from individuals such as each of you that we of the F B I have been able, as public servants, to discharge the many responsibilities assigned to us.

What does this number represent? What does it mean to each of you here tonight? What happens when it is dialed and important information is transmitted? It is my purpose tonight to give you a word picture of the operations of the F B I — that organization which is as close to you as the nearest telephone.

One of the reasons for the establishment of the Bureau in 1908 was to guarantee a permanent investigative force for the Department of Justice. We are a federal investigative agency and, as such, our jurisdiction is limited to federal, as distinct from state, violations. Gradually our investigative jurisdiction has been extended by Congressional passage of various so-called crime bills. Today we have primary jurisdiction over more than one hundred criminal statutes, many of which are well known to the general public.

The Bureau was reorganized in 1924. A new Director, 29-year-old John Edgar Hoover, was appointed. He immediately insisted that the F B I be strictly non-political in nature. Wise personnel procedures were inaugurated

and appointments to and promotions within the Bureau were based solely upon merit and proven ability. These original precepts have been steadfastly followed. Today, in its protection of civil liberties, the F B I adheres to the highest standards of ethics in the law enforcement profession and does not resort to illegal or unethical tactics.

The Director has publicly stated on many occasions that crime prevention is a community problem and that a national police force is neither needed nor desired in the United States. He has steadfastly advocated that cooperation should prevail between all law enforcement agencies and urged that the standards of local law enforcement be raised.

As illustrative of the cooperative attitude of the F B I may be cited our Identification Division. Created by the Director in 1924 so that a central depository could be had of fingerprint records, the Identification Division now has approximately 93,500,000 of these cards classified and properly filed. Criminal fingerprint cards are filed separately from the non-criminal. Approximately 12,500 local law enforcement agencies contribute prints to these centralized files and, in turn, receive information as to the results of a search made of an incoming print against the criminal file.

Applicants for civil service positions, persons entering the Armed Forces, and individuals applying for work in certain defense plants are fingerprinted and their cards forwarded for inclusion in our files. Recently a conviction for arson, a ten-year sentence for robbery, and an arrest for assault and battery were disclosed in the fingerprint records of an applicant for work in a California aircraft plant. In another case, the fingerprints of a man applying for a position with a company engaged in making explosives,

revealed that he had previously been arrested and sentenced to serve one hundred and twenty days in the county jail at Cedar Rapids, Iowa, for arson. Thirteen soldier-victims of a train wreck near Terre Haute, Indiana, were identified when their fingerprints were searched through our files.

Another cooperative function of the Bureau is the F B I Laboratory. This has been called the age of science. Realizing the valuable assistance to be gained from the Laboratory, the Director created this division in 1932. It was expanded to meet the needs of our Special Agents and local law enforcement officers and today it employs some 350 trained scientists and technicians able to make every test known to criminal science with the equipment valued in excess of one million dollars.

Recently a paint specimen was submitted to the F B I Laboratory in connection with a hit and run case. After microscopic, microchemical, and spectrographic examination and reference to the National Automotive Paint File, our experts were able to advise the Police Department of Portland, Maine, that the specimen was most similar in composition and layer structure to the black finishes used on Mercury and Lincoln-Zephyr cars. The Police Department later advised that the automobile involved was a 1936 model Lincoln-Zephyr.

In another case a theater operator and business man of San Angela, Texas, received several extortion letters. He was given the option of either paying \$1,000.00 or of having personal injuries inflicted on himself and members of his family and his theater blown up. Investigation by our agents in cooperation with the San Angela Police Department resulted in the apprehension of J. F. Williams and R. L. White, members of a gang thrice observed in the

vicinity of the designated pay-off spot. Williams had several sheets of pencil tablet on his person. A search of his home revealed a tablet, the second page of which contained indented writing traces such as would occur if the preceding page were written on while still in the tablet. Also found were several blank envelopes. This material, together with numerous specimens of Williams' handwriting, was submitted to the F B I Laboratory.

A comparison of Williams' handwriting with that of the extortion notes resulted in an identification. The examiner then compared this writing with the handwriting in several extortion letters received by two other individuals in cases under investigation by our agents and effected an identification. The blank envelopes found in Williams' home were found to be similar in style, cut, and dimensions within 1/100 of an inch, to the envelopes used for two of the extortion notes. The paper found on Williams compared favorably with the paper on which the extortion letters were written. Upon placing the sheet containing the indented writing in a parallel beam of light, shadows cast by this beam of light enabled the examiner to determine that the words in the indented writing were identical with the words in one of the extortion letters. The expert testified to his findings in court and Williams and White were found guilty by the jury. They were fined \$2,500.00 and sentenced to serve three years in a federal penitentiary.

During the past fiscal year the Laboratory examined approximately a quarter of a million specimens, including those submitted in some 1500 police cases. These scientists have contributed heavily to the successful investigations conducted in cases ranging from espionage, sabotage, and

similar matters to the most everyday occurrences. Not only have their findings assisted in convicting the guilty but, even of greater importance, in acquitting the innocent.

The F B I National Academy was created in 1935 by Director Hoover as a further cooperative function and to assist in raising the efficiency of law enforcement agencies. Its purpose is to train law enforcement officers as instructors and executives in municipal, county, and state police organizations. These sessions are of fourteen-weeks' duration and instruction and materials used are without cost to those in attendance. After graduation, these officers return to their own organization and instruct their fellow members in the techniques learned at the Academy.

On September 6, 1939 the President of the United States formally directed the F B I to take charge of investigative work in matters relating to espionage, sabotage, and violations of the neutrality regulations. Law enforcement officers were requested to turn over to the F B I information obtained by them relating to such matters. We were charged with correlating all such information on a nation-wide basis to avoid confusion and irresponsibility. In discharging these responsibilities, especially since our entry into World War II, we have had the support of the public.

You no doubt are familiar with our Alien Enemy Control program. Within forty-eight hours after Pearl Harbor our Agents, with the assistance of local police officers, took 1400 aliens of enemy nationality into custody for hearings before Alien Enemy Hearing Boards. A potential fifth column was effectively crushed. As of December 1, 1944 over 16,000 alien enemies have been taken into custody, one-third of whom have been interned for the duration, the others being paroled or released.

AK

As regards sabotage, there has been no successful foreign-directed act of sabotage to date. During the past five years about 18,000 cases of reported sabotage were investigated by the F B I. In 11% of the cases sabotage in some form was found, usually due to spite, carelessness, or similar reasons.

Another phase of our work has been in connection with the Selective Training and Service Act of 1940. As of November 1, 1944 over 425,000 cases of this nature have been closed. The men involved were either made available to the military service or otherwise disposed of by law. Fines alone have totaled approximately one million dollars where convictions have resulted.

During the present war the public has read of the apprehension by the F B I of the eight Nazi saboteurs within fourteen days after their landing on our coast from submarines. They have heard many of the details of the activities of the spy ring of 33 headed by Frederick Duquesne and the ring of nine headed by Kurt Ludwig. From time to time espionage cases have highlighted the news, involving both men and women like Velvalee Dickinson, the so-called "doll woman" who used the language of dolls in a futile attempt to transmit vital war information to the Imperial Japanese Government. Other similar cases involving aliens, naturalized citizens, and American-born men and women have come to your attention.

The phone number, available to all persons irrespective of race, color, or creed, represents locally the investigative organization that has been and is working unceasingly to keep this country secure from within. Open 24 hours a day, seven days a week, the New York Office is in constant teletype and telephonic communication with Bureau headquarters in Washington, D. C.,

and the other fifty-six F B I Field Divisions strategically located throughout the United States and our insular possessions. In national defense or criminal matters having ramifications in many states, the Bureau coordinates and directs the investigation so that no lead is left uncovered in securing the evidence necessary to convict the guilty or free the innocent. The F B I is dedicated to bringing home to every man, woman, and child the simple truth — that crime does not pay.

Most of you became acquainted with the F B I during the era when kidnapping was flourishing. Let me recall for you the story of jovial, blue-eyed, golden-haired, five and one-half year old James Bailey Cash, Jr., nicknamed "Skeegie", the victim of one of the most revolting and atrocious crimes ever to be written in the annals of criminal history.

"Skeegie" was an only child. His parents lived in Princeton, Florida, near the Everglades. On Saturday, May 28, 1938, "Skeegie" was bathed and placed in bed shortly after 9:00 P.M. After he fell asleep his mother walked to a nearby merchantile store operated by Mr. Cash, worked with him until closing time, and both returned home. "Skeegie" had mysteriously disappeared. The house and surrounding vicinity was searched by the parents and helpful neighbors, all to no avail. An examination of the rear screen door showed that the screen had been slit in triangular fashion to expose the lock and that entry had been gained in this fashion.

At 11:00 P.M. the same night, Mrs. Asbury Cash, the sister-in-law of the anguished Cash family, removed from the handle of her front door a note addressed to "Skeegie's" father written on an irregular shaped piece of paper

such as is used in a meat market. It read: "If you have no note yet go to the first nigger house of left on first oil road South of Princeton and get note there".

The owner of the shack mentioned said that early in the evening he had been awakened by a gruff voice which instructed him to take a note to Mr. Cash, informing him he would be paid \$50.00 for so doing. Instead of delivering the note, being frightened, he fled to a neighbor's house with his wife.

This second ransom extortion communication, which was accompanied by a crude map, set forth to the route to be followed to effect the payment of \$10,000.00 ransom for the return of "Skeegie".

In spite of the warning contained in the note, the police were advised of the abduction and they, in turn, called the F B I.

In compliance with the demand, at midnight on Monday, May 30, 1938, Mr. Cash proceeded in his car with \$10,000.00 in cash to follow out instructions. He followed the 10 mile course and awaited the designated flashlight signal which was to indicate the spot where the money was to be left. No signal came.

A third ransom note was found by Franklin Pierce McCall in the presence of Harry Wright under peculiar circumstances. Shortly after Mr. Cash had left on his fruitless trip to pay the ransom, McCall came to the residence of Hal McLaughlin in a pick-up truck. McLaughlin ran a filling station and Wright was his employee. McCall stated he needed some gasoline and he and Wright drove across the street to the filling station. McCall saw an individual

leaving the filling station but Wright did not. Wright unlocked the filling station and pumped in the required gasoline. Just before the electric light was turned off in the station preparatory to leaving, McCall, who was just behind Wright, called Wright's attention to a piece of paper he said he had picked up off the floor. This note read: "To many people. Take same route at 4AM. but first call in all spies. Put all notes in box with money. Light will blink twice".

At 4:00 A.M., May 31st, Mr. Cash again made the 10 mile run. At 4:10 A.M. he received the prearranged signal and hurled the box containing the \$10,000.00 into a ditch beside the road.

Hours dragged by and "Skeegie" was not returned. Mr. Cash, believing his child was dead, requested Mr. Hoover to handle the case as he saw fit. Immediately ransom lists were prepared, setting forth the numbers of the ransom bills and these were sent out to every F B I Office for distribution. Every resource of the Bureau was thrown into action and all clues carefully investigated. U. S. Navy and Coast Guard planes conducted a thorough search from the air. Searching parties braved the snakes and dank vegetation of the Everglades.

The Director was not satisfied with McCall's story as to the finding of the third ransom note. Since it was unusual that the filling station would be entered after midnight of May 30, 1938, therefore, the individual who left this note could not have any definite way of knowing that the station would be open on that evening and could not have been positive that it would reach "Skeegie's" father in time to comply with the instructions.

McCall was a young man, 21 years old, who was considered to be a friend of the Cash family, having taken part in the search and evincing eagerness to find the lad. He denied in a cool and deliberate manner his participation in the abduction. Finally, the inconsistencies being pointed out to him, McCall admitted participating in the kidnapping, but denied taking "Skeegie". He told Mr. Hoover where the ransom money could be found and implicated a relative of the victim's father as a participant. All but \$5.00 of the ransom money was recovered.

Swiftly the case was terminated, McCall confessing to the entire crime. Under his directions "Skeegie's" body was recovered on June 9, 1938. The relative of Mr. Cash was completely cleared, McCall implicating him because of some difficulty he had had with him over money matters.

McCall came from a good home, his father being a pastor. He was six feet tall and weighed 200 lbs. He had worked for Mr. Cash and lived at Cash's home. "Skeegie" always called him "Preacher Boy". However, he was a cold, unresponsive and unemotional person who permitted "Skeegie" to suffocate as the result of handkerchiefs bound around his mouth and eyes during the abduction.

McCall was delivered to state authorities on June 10, 1938 and was electrocuted at 11:16 A.M. on the morning of February 24, 1939.

It has been a privilege to speak to you tonight as the representative of my Director. The F B I has greatly appreciated the cooperation of the public during these war days. We trust that we will receive your continued cooperation in the days that lie ahead.

RE: CHARLES H. STANLEY, SPECIAL AGENT
SIXTY-DAY EFFICIENCY RATING

June 27, 1945

This memorandum supplements Standard Form Efficiency Rating No. 51 and with that form comprises a Sixty-day Rating on this Agent who reported to the Little Rock Field Division from New York City on April 14, 1945.

Mr. STANLEY makes a good personal appearance, dresses well and has a better than average personality. He is industrious, enthusiastic, forceful, aggressive and works without regard to personal consideration.

During the period of this report, he has been on general assignment in the Little Rock Field Division, handling principally general criminal investigative matters. Mr. STANLEY is a former Bureau stenographer and is therefore outstanding in both shorthand and typing. He is considered very good in ability to dictate, and from personal observation, I consider him well qualified to operate an automobile. He is a very good witness. He has assisted in the supervision of firearms training and he is above average in this regard.

I feel that this man is an outstanding Agent, and his attitude, enthusiasm and loyalty to the Bureau are all that could be asked. I feel that he is well qualified to be a Bureau supervisor, a Field supervisor or an Assistant Special Agent in Charge in a small field office.

Re: Charles H. Stanley
In-Service Class No. 17

On August 8 while participating in a league game in which the soft ball team of the Training Division was one of the participants SA Charles H. Stanley turned his ankle and sustained a slight fracture of the fibula bone of his right foot. The break is considered to be not serious and Stanley will go to the hospital where his foot will be placed in a cast for approximately six weeks. He is assigned to Little Rock and Mr. Morley has also talked with him and is aware of his injury. Mr. Morley advised me that Stanley has been assigned to a job in Little Rock which will keep him at a desk so there will be no difficulties so far as his ability to work is concerned.

RE MERITORIOUS INCREASES

Mr. R. G. Fletcher, Supervisor, Security Division, by memorandum dated August 2, 1945, called attention to the outstanding work performed in connection with the Pat J Case Micase, Espionage - G, and recommended that ASAC Donegan, who was in charge of this investigation; Charles Stanley, who was Supervisor of the Major Espionage Unit in New York; Peter P. Hoehl, to whom the Pat J Case was assigned, and Special Agent Roy J. Barloga, to whom the Micase (Confidential Informant Mike) was assigned, be considered for meritorious increases in salary. He also recommended that the New York Office be requested by letter to advise of any additional Agents whom it was believed were deserving consideration for meritorious increases in salary or letters of commendation in connection with their work on these two cases. The New York Office also requested telephonically. In reply thereto the New York Office recommended that Peter P. Hoehl, to whom the Pat J Case was assigned from its inception, and SA Howard R. Hawkins, who had been assigned to the radio station at Wading River, Long Island, and since February of 1942, be considered for meritorious increases in salary for their outstanding work in connection with these cases.

Mr. L. L. Tyler, Supervisor in the Security Division, in a memorandum to Ladd, dated August 2, 1945, recommended that Supervisor R. G. Fletcher be considered for a meritorious increase because of his supervision specifically of these two cases, generally because of his large part in the Bureau's successful German counterespionage program.

Detailed memoranda which were submitted by both Supervisor R. G. Fletcher and Supervisor Tyler, are attached concerning the various ramifications of these two cases. A review of these memoranda reflect that the cases in question, which involved the agents Pat J and Mike, have been successful and very important, both from the counterespionage and the deceptive standpoints. They presented from an investigative standpoint some most unique and difficult problems. Some of these problems were the handling of Pat J in the early stages when he was exceedingly temperamental and somewhat suicidal; the handling of radio traffic in order to develop the case successfully and for the purpose of transmitting deceptive information; the handling of Pat J and Mike, who were both under control, in such a manner that neither would realize that the other was under control; the handling of Van Gelder, who was one link in the channel of payment to Pat J; and the creation of notional subagents of Pat J as covers for the transmission of deceptive information.

5 JAN 22 1946

66

It was pointed out that the accomplishments in this matter from a counterespionage standpoint over the period of three years in which it was in operation are too great to enumerate. The accomplishment as a part of the deceptive program is evidenced by informal and highly confidential advice to the Bureau from the Joint Security Control.

EMPLOYEES' PRESENT SALARY STATUS

Special Agent Charles H. Stanley is presently in Grade CAF-12, \$5390 per annum, having last been granted an increase under the Uniform Promotion Act as of January 1, 1945. He is eligible for an increase under the meritorious provisions of the Uniform Promotion Act at this time.

UNITED STATES GOVERNMENT

DATE: August 2, 1945

FROM R. G. FLETCHER

SUBJECT PAT J CASE: MICASE
ESPIONAGE * G

65-41274

Chas Stanley

As you will recall, the last radio contact in the Pat J Case was on May 1, 1945. Since that time, various leads have been run out in order to bring this case to a logical conclusion, and at the present time the only leads outstanding are to interview Dr. Otto Ernst Hering and Professors Peter De Bye and Willem Van Der Grinten.

The name of Dr. Otto Ernst Hering came into this case when Pat J received the following query in his last message received from the Germans: "Try to find out whether a Dr. Otto Ernst Hering lives in your city and then advise immediately." A check of our files revealed that we had previously interviewed Hering with negative results and it was not believed at this time that an additional interview with him purely on the basis of the above message would be productive and this interview is being held in abeyance until information is gathered from Pat J's principals in Europe as to the basis for the above message.

The names of De Bye and Van Der Grinten were given to Pat J by the Germans upon his departure for the United States and he was told that they would be able to furnish him information concerning atom smashing experiments in the United States. Investigation has been conducted on these two individuals with negative results and the only thing remaining is to interview them; however, the War Department has requested that we hold this interview in abeyance until further information concerning these two individuals is received from Europe.

In view of the fact that this case has been an extremely successful double agent operation, it is believed that ASAC Donegan, Supervisor Charles Stanley, and Special Agent Peter Heshl, to whom this case is assigned, should be given consideration for meritorious increase in salary for the following reasons:

1. The fact that this case has been a successful operation is not only borne out by the commendation which we received from the War Department for the successful part it played in the overall Allied deceptive program, but it also illustrated by the next to the last message which Pat J received from his principals which stated as follows: "Uncle will protect your interest in the future as before and will care for you. He thanks you many times for that which you have done up to the present time." Captured documents also ~~showed this conclusion.~~

To make this a successful operation, it of course follows that numerous obstacles had to be overcome. The clear thinking, ingenuity and hard work on the part of the individuals above were to a very great extent responsible for overcoming these obstacles. The following will give you a bird's-eye view of some of the more troublesome problems which arose in this case:

A. Handling of Informant

When the informant arrived in the United States, he was extremely ill.

Memo for Mr. Ladd

with pneumonia, making the interrogation difficult and jeopardizing the inception of this case.

The informant attempted to smuggle \$10,000 into the United States without our knowledge and the Agents, through clever investigation, discovered the existence of this money and confiscated it from the informant.

The informant, after his attempt to smuggle the money into the United States had been discovered, became disheartened and attempted to commit suicide. The Agents, through technical devices, discovered this and saved the informant's life, thus making it possible to continue the case.

Despite the above mental attitude and character of the informant, he was handled in such a clever and intelligent way that he caused no more difficulty and became an extremely cooperative and valuable informant, in spite of the fact that he received a relatively low salary from us for this service. He received \$55.00 a week from October, 1942, to March, 1943; \$20.00 a week from March, 1943, to May, 1944; \$25.00 a week from May, 1944, to May, 1945, and \$50.00 a week from May, 1945, through July 30, 1945.

B. Handling of Radio Traffic

At the inception of this case, it was Pat J's understanding that he was merely to act as a means of communication for other individuals already in the United States. Therefore, very little information was sent, on the basis that Pat J was not in a position, without danger, to personally secure information of value to them. However, after the contact was made with the Joint Security Control, Pat J's circuit was skilfully built up to provide logical sources for him to which the Joint Security Control might logically attribute the type of information which they desired the enemy to receive. For example, some of his information was picked up by loose talk at various bars. He developed a friend, Holtz, who was assigned to the Brooklyn Navy Yard. Then Holtz developed a friend, Hermann, in the Philadelphia Navy Yard and Holtz was transferred to the West Coast and developed another notional informant named Otto to continue his work at the Brooklyn Navy Yard. Since Pat J. was an Eins Marine agent, these would be his logical sources.

It was also noted that through our radio contact, we were able to ascertain considerable information concerning the modus operandi of the German Intelligence Service and to ascertain for the Army and Navy the type of military and Naval information in which the Germans were interested.

C. Handling of Investigative Problems Arising Out of this Case.

Although Pat J had been paid \$16,000 upon his departure for the United States in the Fall of 1942, it was felt that in view of the danger of operating a radio, plus expense of living and the high price that he had to pay notionally for his information, that he should be furnished more money by the German Intelligence Service. It was felt that through demanding this

Memo for Mr. Ladd

money we could not only evaluate the Germans' estimation of Pat J's services but could determine what channels, if any, the Germans had in the United States.

The Germans advised Pat J they would pay him \$2,000 by postage stamps. Through [] we found that Pat J's principal was advised that these stamps could not be brought directly into the United States because of our foreign travel control but would be brought to South America and sent to Pat J from there. b3

In January, 1944, British Censorship furnished a copy of a letter from Buenos Aires dated December, 1943, to a mail drop in Madrid containing secret writing. In this secret writing was contained the following sentence: "Stamps received. Part stamp address disappeared. Repeat address." Although this drop is not tied up with the Pat J case, a mention of the stamp address in the secret writing portion was recognized and SIS appropriately advised so that the investigation of the writer of this letter, who was later identified as on Victor Sepelev, would not endanger the Pat J operation.

In January, 1945, these stamps appeared in Pat J's mail box. Investigation determined that they had been placed there by one Jacqueline De Tonmay who was determined to have been a former employee of the American Embassy in Buenos Aires. De Tonmay's background was good and we desired to ascertain the explanation for her having brought the stamps to the United States without our allowing our interest in these stamps to be made known.

Peter Koehl, using the name to which the stamps had been addressed, met De Tonmay personally and thanked her for bringing the stamps to him. He also was able to meet her several times thereafter and found that Sepelev had roomed at the home of a Russian woman where De Tonmay was taking Russian lessons and when the woman had found out that De Tonmay was coming to the United States, she asked as a personal favor that De Tonmay mail these stamps to the post office box, thus clarifying the situation.

The second method of payment used by the Germans was through business concerns. The German Intelligence Service contacted one Van Messel in Spain to determine if he had a way of getting money to an agent in the United States. Van Messel stated that he had a cousin, Van Gelder, in New York City who was in business and that he felt he could transfer this money to his cousin. Van Messel then, through a firm in Venezuela and a firm in New York, made this money available to Van Gelder. Shortly thereafter, however, Van Messel reported the contact of the Germans to the French Intelligence Service. We therefore had the problem of attempting to keep the French Intelligence Service out of the case and also to determine the bona fides of the firm in Venezuela, the firm in New York and Van Gelder, as well as the close associates of Van Gelder. Van Gelder received this money through the firm in New York, but when it came to turning it over to Pat J, he insisted that Pat J who was calling for the money under an alias prove his correct identity. It was therefore then felt necessary to take Van Gelder into our confidence in view of the fact that in order for this case to properly continue to be of value for deceptive information, Pat J would have to receive money to justify such and also if Pat J received money

Name for Mr. Ladd

through this channel the Germans might attempt to use the same channel to pay other agents in the United States. Van Gelder turned out to be cooperative although the Germans never sent additional information through this channel, inasmuch as the French, despite our request, arrested Van Messel and the arrest became known to the Germans. The transaction however was so skilfully handled from this end that the arrest of Van Messel did not compromise Pat J.

Pat J still insisted that the above was not sufficient money so the Germans advised that they were sending him from \$6,000 to \$8,000 in the form of jewelry. Shortly after Pat J received this message, one Jan Letsch, who will be referred to as Confidential Informant Mike, appeared at the American Embassy and advised that he had been approached by Pat J's principals to bring jewelry to a German espionage agent operating in New York City. This information was immediately tied up with the Pat J case at the Bureau and it was possible to verify not only that Mike's story was true, but also that the Germans still had extreme faith in Pat J. Arrangements were made for Mike to proceed to the United States. It was felt that for the best interest of the case neither Pat J nor Mike should know that the other was controlled so that the compromising of one would not compromise the other. It was therefore arranged that when Pat J's principals desired to send a message to Mike, Pat J would call Mike at his hotel from a pay phone and give him the message and then furnish any message which Mike might have to Pat J's principals over the radio. The problem then arose of having Mike furnish the jewelry to Pat J and still not uncover Pat J's identity. A scheme was worked out whereby the negro chauffeur in the New York Office was used as an intermediary and the payment made in a crowded place so that Mike was led to believe that the surveillance of the negro was lost.

The handling of these two informants was extremely difficult, inasmuch as Mike was trying to uncover Pat J and vice versa. Mike has never indicated that he is aware that we know Pat J's identity, although when Mike left the United States on May 21, 1945, to return to Spain in accordance with instructions from his principals, Pat J could not understand why we did not pick him up. It was cleverly explained to Pat J that the picking up of Mike would endanger Pat J and his relatives since the Germans would know that he was the one who fingered Mike and also he was told that we had found out that Mike was to return to this country later, at which time we would then have an opportunity to pick him up.

RECOMMENDATION

In view of the above, which illustrates some of the high spots of the case, it is recommended that ASAC Donegan, Charles Stanley, who was Supervisor of the Major Espionage Case Squad in New York, Agent Peter Hoebl, to whom the Pat J case was assigned, and Agent Roy Barloga, to whom the Mike (Confidential Informant Mike) was assigned (it being pointed out that although interwoven with the Pat J case, it was handled as a separate case), be considered for meritorious increases in salary and that a letter be dispatched to New York requesting the Special Agent in Charge to advise of any additional Agents which he believes may be deserving of consideration for meritorious

Memo for Mr. Ladd

increases in salary or letters of commendation in connection with their work in these two cases.

ACTION

The New York Office has been telephonically requested to furnish the information contained in the latter part of the above recommendation.

Re: CHARLES HERBERT STANLEY;
ANNUAL EFFICIENCY RATING.

This memorandum supplements Standard Form of Efficiency Rating Number 51, and with that form constitutes the annual efficiency rating on this employee.

This man makes a very good personal appearance and has an excellent personality. He has the desirable degree of force and aggressiveness. He is resourceful, industrious and enthusiastic. In my opinion he is an outstanding representative of the Bureau.

Mr. STANLEY is considered very good in ability to dictate. From personal observation I consider him a satisfactory automobile driver. I have heard him present cases before the United States District Court and he has done a very good job. He is qualified as a Bureau firearms instructor and is well qualified for the handling of dangerous assignments, both from participation and a supervisory standpoint. He has had considerable experience on a physical surveillance, particularly in the New York Office and is well qualified for such work. He is a former Bureau clerical employee, uses the typewriter with well above average proficiency for an Agent, and takes shorthand. His reports are excellent and require no supervision. He is well regarded by law enforcement officers and others with whom he has come in contact. I have had many favorable comments from court officials on this man's handling of his work. He can organize, initiate and assume full responsibility for any type of Bureau investigation other than accounting. He is a good physical specimen.

During the period of this report he has worked in the New York Office in a supervisory capacity, has been on general assignment in the Little Rock Field Division for several months, and is presently assigned as Assistant Special Agent in Charge of the Little Rock Office. He has handled the supervision of Sabotage, Espionage, and Security Matters, has worked on a variety of general criminal cases, and is presently supervising Selective Service, Deserter, and Applicant cases. In each instance he has done an outstanding job.

This man has demonstrated he is possessed of supervisory, administrative and some executive ability. He has shown a capacity for getting along well with those persons who are subordinate to him and I believe is definitely above average as an administrator.

RATING: EXCELLENT.

UNITED STATES GOVERNMENT

TO : MR. TOLSON

FROM : R. C. HENDON

SUBJECT :

DATE 1/14/46

I Suggest the following personnel changes:

1. That SAC John F. Trost of the Norfolk Office be transferred to Atlanta as Special Agent in Charge to replace Richard Danner who is submitting his resignation.

Trost entered on duty in July 1938 and has served in various parts of the country. He was also the Bureau's representative in Kingston, Jamaica. He was designated Assistant SAC at Savannah in December 1944 and at Norfolk on March 17, 1945. He has been special Agent in Charge of the latter office since November 19, 1945 and is presently in Grade 13, at \$6230 per annum. He is a native of Wisconsin and Milwaukee is his office of preference. He has A.B. and J.D. degrees, is married and has one child. The Director when seeing Trost in November 1945 commented that he made an excellent appearance, was interested in his work and would be rated above average. It is believed that Trost can very capably handle the Atlanta Office.

2. That John J. Gleason, Jr., presently Assistant SAC at Indianapolis be transferred to Norfolk as Special Agent in Charge.

Gleason entered on duty August 10, 1936, as a Clerk and as an Agent on June 5, 1939. He is in Grade CAF12 at \$5390 per annum. He is 32 years of age, married and has an LL.B. degree. He has been enthusiastic and has exercised good intelligence and judgment. He was Assistant SAC at St. Louis from November 1942 until transferred to Indianapolis as Assistant SAC in November 1944. He is qualified in administrative firearms and has received inspection training. He assisted on a number of field inspections in a very satisfactory manner. Mr. Wyly indicated that he did an outstanding job as Assistant SAC, succeeding K. P. Pettijohn, who had been removed at Indianapolis. I have had two or three contacts with Gleason both in the Indianapolis Office and while attending conferences in Washington during the past year and was very much impressed with him. He makes a very good, mature appearance, has a very high degree of enthusiasm and I believe definitely possesses administrative ability.

3. That Harvey G. Foster be designated Assistant SAC at Indianapolis to succeed Gleason.

Foster was transferred from Los Angeles to Little Rock as Assistant SAC but immediately upon his arrival there it was necessary

RCH:DW

for him to go to Indiana where he is presently on leave due to the very serious illness of his mother. It has been indicated that his mother may die at any time, while on the other hand she may linger for several weeks, with the result that he should be assigned to the Indianapolis office at this time. Foster is 33 years of age, married and a native of Indiana although the West Coast is his preference. He has an LL.B. degree from the University of Notre Dame. He entered on duty October 2, 1939 and served in various offices including San Juan. He was assigned to New York in November 1940, where he served very satisfactorily until assigned as a Firearms Instructor at Quantico in April 1944. He was transferred from Quantico to Los Angeles in August 1945 to give him additional field experience. His record has been excellent, he has received inspection training, is qualified to give speeches and in every way seems capable of handling the position of Assistant SAC at Indianapolis.

4. That Charles H. Stanley, assigned to the Little Rock Office, be designated as Assistant SAC to replace Foster.

Stanley entered on duty as a Clerk on June 24, 1935 and as an Agent on June 26, 1939. He is presently in Grade CAF 12 at \$5600 per annum. He served at Oklahoma City and Philadelphia and was assigned to New York on August 7, 1940. He did an excellent job both as an Agent and as a Supervisor in the New York Office where he was in charge of the major case section. It was indicated at that time that he had ability to function as an Assistant SAC. He has been assigned to Little Rock since April 1945. Stanley is 33 years of age, married and has an LL.B. degree. He is a native of Arkansas and Little Rock is his office of preference.

I saw this man during his attendance at In-Service Training School. He is a very friendly type of individual who seems to have a good grasp of his responsibilities and who has an intense loyalty to the Bureau and to the SAC.

I think he is probably an excellent Assistant, particularly in the Little Rock Office but it is not believed that from the general salesmanship angle he is qualified for the position of SAC.

In view of the fact that Assistant SAC Charles H. Stanley, of the Little Rock Office, who is attending in-service training school to close on October 4, is to receive Inspector's Aide training, I recommend that Special Agent Charles F. Alden, of the Little Rock Office, and Supervisor John E. Edwards, of the Administrative Division, who are also attending this class, receive similar training. Their records are very good and they seem to have good possibilities for further advancement. I have advised Mr. Morgan to afford these men such training.

Stanley is 34 years of age, married, a legal resident of Arkansas and has an LL.B. Degree. His offices of preference are Little Rock, Dallas, and Memphis. He entered on duty as a Clerk in June 1935 and as an Agent in June 1939. After service at Oklahoma City and Philadelphia he was assigned to the New York Office in August 1940 where he was assigned until transferred to Little Rock in April 1945. While at New York he did an excellent job as a Supervisor and was for a long period of time #1 Man to Mr. Donegan and Supervisor of the Major Espionage Squad. As such he handled some of the more important wartime cases of the Bureau. He has been Assistant SAC at Little Rock since January 1946.

He is a thoroughly loyal and capable individual who is considered an excellent desk man although it is doubtful that his personal qualifications are such as to make him an outstanding Agent in Charge.

I feel that his present responsibilities and his ability merit his reallocation from Grade CAF 12, \$6623.40 per annum to Grade CAF 13, \$7102.20 per annum.

RCH:DW

ADDENDUM: 1/23/47

SAC Morley advises me that Stanley is a reserved individual and perhaps if he has a weakness it is on making outside contacts and handling public relations. However, Mr. Morley states he is thoroughly capable and is doing a splendid job on the handling of cases and supervision of personnel. Morley states he will always give the Bureau everything that is in him, he is thoroughly loyal and one of the most conscientious men Morley has ever known. He stated it had been necessary just that day to send Stanley home from work because of a bad cold which had been troubling his eyes, despite which he had been trying to work day after day. Morley states that he is thoroughly fitted as an Assistant SAC and there is no question as to his ability. He said Stanley might with further experience improve insofar as the outside contact work was concerned.

I suggest we reconsider on July 1 as to Caf 13

Annual Efficiency Rating

This memorandum supplements Standard Form of Efficiency Rating No. 51, and with that form comprises the annual rating on this employee.

Mr. STANLEY makes a very good personal appearance and has a very good personality. He has the necessary degree of force, aggressiveness, resourcefulness, industry, and is definitely above average in enthusiasm.

The stenographers consider him excellent in ability to dictate. From personal observation, I consider him a satisfactory automobile driver. He is a very good witness. He is a qualified Bureau administrative firearms man, and as such is well qualified to participate in and to supervise raids and dangerous assignments. He is considered very good to excellent in ability with firearms and range conduct. He has handled limited physical surveillances during the period of this report in above average fashion.

He uses a typewriter with well above average facility, and is a former Bureau stenographer and takes shorthand. His reports are excellent and require no supervision. He is well regarded by law enforcement officers and other contacts. He is capable of organizing, initiating, and assuming full responsibility for any type of Bureau investigation other than accounting without supervision. He is a good physical specimen.

During the period of this report, he has served as Assistant Special Agent in Charge in the Little Rock Field Division. In this capacity he has supervised Selective Service, Deserter, Bureau Applicant, National Stolen Property Act, and Unlawful Flight to Avoid Prosecution cases. He has also assisted in the supervisory work on the desk of the Agent in Charge. He has been given an opportunity to handle all administrative aspects of a Field Office. He is possessed of ability as a supervisor, administrator, and executive. I consider him a thoroughly capable and cooperative representative of the Bureau.

DATE: July 3, 1947

Reference is made to the Bureau's letter of June 27, 1947, transferring the above-named employee to Washington, D. C.

PERSONNEL CHANGES

Charles H. Stanley

The following personnel changes are being recommended at this time:

1. That Mr. J. C. Strickland, Jr., Chief of the Internal Security Section, Security Division, be transferred to the Little Rock Division as Assistant SAC with no change in grade or salary.

Mr. Strickland entered on duty as a Special Agent on May 23, 1934 and is presently in Grade CAF 13, \$7820.40 per annum. He is 39, married, has one child, has an LLB Degree and is a legal resident of Memphis, Tennessee. His offices of preference are Miami, Memphis and St. Louis. Mr. Strickland has served in a number of the Bureau's divisions, for a short period of time was #1 Man at Atlanta in 1939 and has been assigned to the Seat of Government since November 17, 1939. He has functioned as Chief of the Internal Security Section for a considerable period of time. Mr. Strickland is qualified in administrative firearms and has had Inspector's Aide training and experience.

9 JUL 7 1947

A review of Mr. Strickland's file reflects that he has been uniformly rated Excellent with respect to his duties here at the Seat of Government in a supervisory capacity although it is noted that his section has been the subject of criticism in the recent past. It is pointed out that this section handled the matter pertaining to the Election Fraud case in Kansas City and was the subject of inquiry by Inspector Morgan concerning the redirection of Communist activities. Mr. Ladd on the March 31, 1947 annual efficiency report rated Mr. Strickland Excellent and stated that in his capacity as Chief of the Internal Security Section he had to handle work involving the most pressure and he was able to plan his work and carry out these plans to a logical conclusion, he had done an outstanding job, was well liked by the personnel under him, had been able to obtain maximum work from them, had good judgment and was possessed of administrative and executive ability. He felt that Mr. Strickland was qualified to run one of the Bureau's field offices as an Agent in Charge.

There is attached a chart of the Security Division which indicates the functions handled by the Chief of the Internal Security Section.

2. To replace Mr. Strickland, it is recommended that Special Agent Supervisor Joseph Patrick Coyne be transferred to the Security Division as Chief of the Internal Security Section with no change in grade or salary.

Mr. Coyne entered on duty in the Bureau in a clerical capacity on March 18, 1940 and was appointed to the position of Special Agent on April 28, 1941. He is presently in Grade CAF 13, \$7102.20 per annum. He is 30, married and has three children. He has an AB Degree from St. Ambrose College, Davenport, Iowa, has the equivalent of an MA Degree from Catholic University, Washington, D. C. and attended Georgetown Law School for a period of time. He lists no legal residence. However, his offices of preference are Boston, Providence and New York.

Mr. Coyne served as a Special Agent in the Birmingham Division before being brought to the Seat of Government as a Supervisor on February 13, 1942. He has worked in the Internal Security Section and in August 1945, Mr. Strickland stated that Mr. Coyne handled the supervision of the Internal Security Section in his absence on special assignment and he functioned in an excellent manner. It was Mr. Strickland's opinion that Mr. Coyne definitely had administrative ability and he felt he was capable of handling a section. For the past year and a half Mr. Coyne has functioned as the Assistant to Mr. E. A. Tamm. Mr. Tamm has stated that Mr. Coyne has a splendid faculty of dealing with people, that he definitely was above the standards of performance considered acceptable for men in his grade and that he was outstanding from the viewpoint of potential development. On the March 31, 1947 annual efficiency report Mr. Tamm rated him Excellent and said he handled an extraordinarily large volume of work in an exemplary manner, had outstanding ability, good judgment, determination and fortitude in adhering to his convictions and he stated he had outstanding possibilities for continued development along administrative and executive lines. Mr. Coyne assisted Inspector Morgan in the survey with respect to the redirection of Communist investigations and Mr. Morgan paid glowing tribute to Mr. Coyne's integrity and his desire to improve the efficiency of the Bureau.

3. It is being recommended that Assistant SAC Charles H. Stanley of the Little Rock Division be transferred to the Seat of Government as a Supervisor in the Atomic Energy Section of the Security Division.

Mr. Stanley entered on duty as a Special Agent on June 26, 1939, having served four years previously as a clerical employee in the Bureau. He is presently in Grade CAF 12, \$6623.40 per annum. He is 34, married, has no children, has an LLB Degree, is a legal resident of North Little Rock, Arkansas and his office of preference is Little Rock. Prior to his transfer to Little Rock on April 14, 1945, Mr. Stanley was assigned to the New York Office for five years and was the Supervisor of the Major Case Squad and in that capacity did an excellent job. He was designated Assistant SAC at Little Rock on January 16, 1946.

On the March 31, 1947 annual efficiency report, SAC Morley rated him Excellent and said he made a very good personal appearance, had a very good personality and was possessed of supervisory, administrative and executive ability. Mr. Gurnea during his inspection of the Little Rock Office in April 1947 said Stanley had prospects of continued development and he was satisfactory as an Assistant SAC for a small office.

Mr. Stanley has never served as a Supervisor at the Seat of Government and it is felt that in developing his attributes he should receive such training.

Agent in Charge

EOD June 24, 1935
Salary CAF-12 \$6623.40

SAC Morley

Mr. Stanley is the Assistant Special Agent in Charge of the Little Rock Field Division. He is mature, capable, cooperative, and in my opinion, has done a well above average job in his present capacity.

Rating: Exceller

Inspector Gurnea

Stanley is always neatly dressed and presents a good appearance. He has a warm, friendly personality that should enable him to develop friends very easily. As yet his supervisory ability is limited. His prospects of continued development, however, are very good. He is presently a satisfactory ASAC for a small office.

Dear Mr. Stanley:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Bethesda, Maryland, on December 17, 1947.

This report reflects that you have conjunctivitis and a medial pterygium of the left eye.

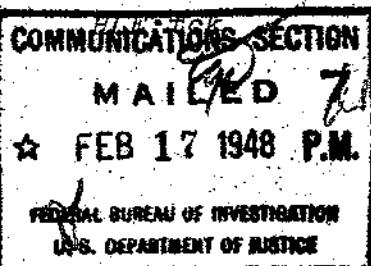

The Board of Examining Physicians of the United States Naval Hospital reports that you are capable of performing strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

Sincerely yours,

Re: REALLOCATION

This employee entered on duty as a clerk on 6-24-35 and was appointed a Special Agent on 6-29-39. He was reallocated to Grade CAF-12, \$4600.00 on 5-1-42 and as a result of two basic increases in salary, two increases under the provisions of the Uniform Promotion Act and one meritorious increase, his salary in Grade CAF-12 was increased to \$6623.40.

By letter to the Bureau dated 3-11-42 the U. S. Attorney for Southern District of New York, commended this agent and others for their work in connection with the Ludwig Espionage case and on 3-21-42, he was commended by the Director for the excellent work he had performed on the same case. By letter dated 8-11-43 he was commended for his excellent work in the Lehmitz Espionage case. On 3-31-44 SAC Conroy of New York rated him Excellent and said that he had been the supervisor of the Major Case desk for the past two months in which capacity he had demonstrated that he had supervisory and administrative ability. In May, 1944, he was afforded administrative firearms training and was authorized to conduct field office firearms training and by letter dated 12-30-44 he was designated an approved Bureau speaker. On 4-14-45 he was transferred to Little Rock. On 9-10-45 he was afforded a meritorious increase because of the outstanding work performed by him in connection with the Pat J Case and the Micase. On 1-16-46 he was designated ASAC at Little Rock. On 10-9-46 Mr. Morgan stated that he was qualified to assist on inspections. His services as ASAC in Little Rock were always considered highly satisfactory by SAC Morley. On 8-2-47 he was transferred to Division Five in the Bureau as an Agent Supervisor.

On 3-31-45, 3-31-46 and 3-31-47 he was rated Excellent.

On 12-17-47 Section Chief R. W. Wall rated him Excellent and stated that since his transfer to the Bureau he has been extremely active in setting up the Bureau loyalty program and impressed his superiors with his complete devotion to his work, his loyalty to the Bureau and his ability to get a job done and indicated that he had a thorough grasp of the duties of the Bureau and in the opinion of Mr. Wall was doing an outstanding piece of work in connection with the Loyalty Program. Due to his lengthy and varied experience in the Bureau, the outstanding work that he has been performing and his absolute devotion to the Bureau, he was strongly recommended

Re: REALLOCATION

to be considered for a promotion to Grade CAF-13 in compliance with the provisions of SAC Letter Number 146, dated 11-18-47.

This Agent has no physical impediments and is capable of performing duties involving arduous physical exertion. There is nothing in his file to indicate that he is not available for assignment to any place at any time.

RECOMMENDATION:

Inasmuch as Agent Stanley does not meet all requirements for Grade CAF-13 as set out in SAC Letter Number 146 and since he has not been an Agent for ten years and is not serving in #1 Man capacity nor higher position, it is recommended that he be passed over for reallocation at this time.

OFFICE MEMORANDUM

UNITED STATES GOVERNMENT

To: The Director

February 19, 1948

From: E. A. Tamm

CHARLES STANLEY

With reference to your memorandum of February 17, 1948, concerning the system in the Loyalty Section which makes possible the delays in the handling of correspondence, you are advised that we have instituted a program of making a complete inventory of everything in the Section once every two weeks in order to avoid any unanswered or unhandled letter, communications or reports. In addition, a considerable amount of new personnel has been added to the Section, and it is believed that this will permit the handling of the work more expeditiously.

A third major change of procedure has been made in the program initiated yesterday of reviewing the files upon receipt of the Civil Service forms in the Records Section rather than in the Loyalty Section to determine whether there is derogatory, disloyal information upon the individual, government employees or applicants. This procedure will cut down substantially the bulk of work upon a number of desks, and will enable the individual supervisors to devote a great deal more time to the direct supervision of the actual loyalty investigations.

My recollection of a prior delay in the handling of a piece of work on Mr. Stanley's desk was inaccurate since the supervisor ultimately at fault was [redacted]. This matter related to the investigation of a [redacted] employee at Dallas, Texas. From December 9, 1947 to January 6, 1948, a report received from the Dallas Office, which required return to Dallas for additional investigation and rewriting, remarked in [redacted] Office without any action being taken. The [redacted] case was one of the older loyalty cases originally having been opened in October. I maintained a tickler on the case, and inquired of Mr. Ladd about two or three times a week for approximately one month. Each time I was assured that the case was receiving appropriate attention, that the report had been returned to Dallas for rewriting, etc. Mr. Ladd assumed that the cases was being properly handled. He instructed Mr. Laughlin to maintain a special tickler on the case. Mr. Laughlin maintained a special teckler and periodically followed up the case, accepting a statement from [redacted] that the matter was "being referred to Dallas." Mr. Wall was also following up the case. In spite of all this follow-up, the report remained buried on [redacted] desk.

Memorandum for the Director:

I expressed very gross indignation to Mr. Ladd, Mr. Laughlin, Mr. Wall and [redacted] concerning this situation, but did not recommend any letter of reprimand to [redacted] since it appeared to me, as a matter of fairness, that everybody involved in the so-called chain of command was equally guilty in not making positive that the necessary action had been taken. When this incident came to my attention I instructed that a complete physical inventory be made by Mr. Wall and this was done.

The several memoranda written about this matter at that time are attached hereto.

My recollection that Mr. Stanley was the supervisor involved involved arose out of the fact that he was in my Office on several occasions in connection with the conferences. which were held to prevent this type of occurrence in the future.

Mr. Hoover's notation:

"This is a horrible but all too prevalent consideration in the Security Division. We have suffered from & too long ' it still continues. The fiasco in the K. C. election case was due to the same slap-happy" attitude. The exasperating factor is that top executives complacently accept their conditions and even at times try to contend nothis is wrong. We surely cant expect inordinates to change their ways when supervisors condone & endeavor to justify short coming." H.

OFFICE PREFERENCE: Little Rock

D. M. LADD:

Mr. Stanley was assigned to the Foreign and Domestic Coordination Section of Division Five on August 2, 1947. He has been utilized exclusively in the supervision of cases being investigated under the Loyalty Program. He is an extremely hard worker, conscientious and very efficient. He is entirely loyal to the Bureau and his work requires a minimum amount of supervision. Mr. Stanley is a quiet, well mannered individual but possesses the necessary aggressiveness. Status: Excellent.

INSPECTOR: HARBO

Mr. Stanley is an agent of average appearance and above average personality. He has been observed during the inspection to be an extremely active, interested, and conscientious Supervisor. He makes a splendid impression during an interview, particularly with respect to cooperativeness. I think this man has possibilities of accepting additional responsibility.

He was rated Very Good in dictation by the stenographers.

MEMORANDUM FOR MR. Tamm

I have carefully reviewed the attached material pertaining to the mishandling of certain letters received from the Philadelphia Office last December wherein the question is raised as to whether or not loyalty investigations should be opened on individuals whose names appear on Communist Party nominating petitions, and I frankly consider the explanation submitted to be grossly unsatisfactory. To begin with, I note that Supervisor Stanley originally acted upon the Philadelphia letter on December 18, 1947. At that time he appears to have pointed out certain problems in connection with the indexing of these petitions and at the same time dictated a memorandum to the Attorney General requesting an opinion as to whether or not the fact that an individual signed a Communist petition was sufficient to open a loyalty investigation. It is further noted that Mr. Wall subsequently discussed this with Mr. Laughlin and Mr. Ladd and as a result of this conference it was decided that it was not necessary to forward the memorandum to the Attorney General. This conference apparently occurred while Mr. Stanley was on annual leave and it appears that nothing further was done on the matter during his absence on leave and that apparently during that period of time his memorandum pointing out certain problems in connection with the matter was lost. Upon his return it appears that he did attempt to salvage the matter after a fashion, finally resulting in approximately the same action being taken as he originally recommended, namely today a memorandum bearing the date of February 13, 1948 was forwarded to the Attorney General requesting the same advice as Mr. Stanley had originally requested.

While I do not intend to justify Mr. Stanley's handling of this matter entirely, I certainly do not consider him to be primarily responsible for this fiasco since the final results appear to be approximately the same as was recommended by him several weeks ago, and certainly during his absence from the city on annual leave his work should not have been allowed to remain untouched, and if such was necessary then it would appear to me that leave should not have been approved at that time.

It is further noted in your memorandum you indicated that some time ago a report was permitted to lay on Mr. Stanley's desk for a period of thirty days without action, and I would like to be promptly advised as to the background of this situation.

116 MAR 29 1948

In considering this matter it certainly appears to me that it is more the fault of the system under which the Loyalty Section is functioning than the failure of any one particular individual.

Very truly yours,

John Edgar Hoover
Director

OFFICE MEMORANDUM

UNITED STATES GOVERNMENT

TO : THE DIRECTOR

FROM : E. A. TAMM

CHARLES STANLEY

SUBJECT: LOYALTY OF GOVERNMENT EMPLOYEES

The attached memorandum concerning the failure of the Loyalty Section to answer letters from the Philadelphia Office going back to December 15 creates another one of those anomalous situations where everyone is responsible, but no one is to blame. The situation is even more disturbing because within the past month a similar situation occurred which related to failure to return to the Dallas Office for additional investigation, correction and rewriting an investigative report which laid on Mr. Standley's desk for a period of thirty days. At that time, a complete inventory was taken of everything in the Loyalty Section, but the subject matter of the attached memorandum was "in transit" and did not show up on the inventory.

Rules, regulations, requirements, and inventories are no substitute for aggressive intelligence, at a supervisory level, in following up matters of individual responsibility. Every effort is continually being made to impress on every Special Agent assigned in any capacity to the investigative side the realization that his responsibility does not terminate when he passes a report, letter, or memorandum on to the next official in the chain of approval.

Mr. Standley is a good supervisor, but there can be no justification for the unwarranted delay in his handling of this material. I think that a letter of reprimand to him and to Mr. Wall are justified in this case, but I think we must go behind that from the investigative side of the Bureau and try to eliminate the fundamental cause of these derelictions - the basic indifference towards following through to make certain that the job is done and done right, and the elimination of the philosophy that the supervisor's responsibility terminates when he tosses any project into his outgoing box.

OFFICE MEMORANDUM UNITED STATES GOVERNMENT

TO : THE DIRECTOR
FROM : D. M. LADD
SUBJECT: LOYALTY OF GOVERNMENT EMPLOYEES

DATE: February 16, 1948

Reference is made to Mr. Tamm's pink memorandum to you dated February 12, 1948, with regard to the delay in answering certain letters received from the Philadelphia and Baltimore Offices. Mr. Tamm observed that the memorandum submitted by way of explanation was "just a lot of words." You noted "I most certainly agree. This is the most atrocious handling of a vital project I have yet seen, and that is saying something. I want specific responsibility fixed so I may take administrative action. H."

I have made further inquiry into this matter and have determined that the letter received from the Philadelphia Office dated December 5, 1947, was assigned to Supervisor Charles Stanley of the Foreign and Domestic Coordination Unit for answering. On December 18, 1947, Mr. Stanley dictated a memorandum pointing out the question raised in the Philadelphia letter. He recommended that due to the amount of work involved in indexing and making photographic copies of the material referred to in the Philadelphia letter, that the matter should be referred to the Records Division and the Security Section for study to determine whether or not it was feasible for the Philadelphia Office to forward this material to the Bureau.

Also in connection with this matter, Supervisor Stanley dictated a memorandum to the Attorney General at the same time, requesting an opinion as to whether or not the fact that an individual signed a Communist Party nominating petition was sufficient to open a Loyalty investigation.

A diligent search has been made in the Loyalty Section for the ticklers of the above-mentioned pieces of mail without results. The notes of the stenographer taking the dictation, however, have been located and there is attached hereto copies of the material prepared by Mr. Stanley.

This material was evidently typed and sent to Section Chief, Robert Wall, on or about December 20, 1947. Mr. Wall remembers discussing this with Mr. Laughlin and me on or about December 22, 1947, and at this time it was decided that there was no need to forward the memorandum to the Attorney General since the policy had been adopted by the Bureau of opening a preliminary inquiry type of Loyalty investigation on Government employees who signed Communist Party nominating petitions.

Mr. Stanley went on leave on December 19, 1947, and on his return January 7, 1948, he had received the cancelled memorandum to the Attorney General. He did not, however, receive the other memorandum prepared by him. At this time he made a complete search of the Bureau files for this memorandum and failed to locate it. He, therefore, dictated a letter on or about January 17, 1948, to the Philadelphia Field Division requesting that a list of the material in their possession be forwarded to the Bureau for indexing. Prior to the time that this letter left the Bureau, Supervisor Stanley was advised by the Records Section of the receipt of a letter dated January 13, 1948,

49
MAR 23 1948

MEMORANDUM TO THE DIRECTOR

February 16, 1948

from the Philadelphia Office marked for the attention of Mechanical Section, by which a portion of the material was transmitted to the Bureau. As a result of this Mr. Stanley held his letter of January 17, 1948, pending his discussion with the Mechanical Section and the Records Division as to the amount of work involved in indexing and reproducing photographic copies of the material forwarded by the Philadelphia Office.

In his discussions with these Sections it was determined that a large amount of work would have to be performed and could necessitate consideration by the Executive Conference.

As a result Mr. Stanley then posed the problem in a memorandum dated February 4, 1948, for consideration by the Executive Conference and at the same time a letter was directed to the Philadelphia Office telling them to hold in abeyance the forwarding of any additional material until the matter had been discussed further in the Bureau, and that as soon as a decision was reached they would be appropriately instructed.

Supervisor STANLEY entered on duty with the Bureau on June 24, 1935, as a typist. He became a special agent on June 26, 1939. Since that time he has worked in the Oklahoma City, New York, and Little Rock Field Divisions. While in the New York office he was appointed supervisor of the major case desk, which position he held for approximately two years. He has been commended by the Director on two occasions for the excellent manner in which he handled certain major espionage investigations. On January 16, 1946, he was designated Assistant Special Agent in Charge in the Little Rock Field Division where, according to Special Agent in Charge MORLEY, he performed his duties in an excellent manner.

Supervisor STANLEY reported to the Security Division on August 4, 1947, and has worked exclusively since that time on the Loyalty Program. He has been very instrumental in setting up this program. At the present time he has charge of a unit of approximately 24 supervisors who review files and write letters to the field opening investigations. His position requires a thorough knowledge of the policies controlling the Loyalty Program. He is and has been performing his duties in an excellent manner since he has been under my supervision. Mr. Stanley is physically capable of performing any type of duties assigned to him.

Mr. STANLEY makes a very good personal appearance, is cordial, respected by his fellow employees, and entirely loyal to the Bureau. He is an extremely hard worker, performs far above the average amount of overtime and is entirely capable.

Recommendation:

In view of Mr. STANLEY's extensive experience in the Bureau and having served in a supervisory capacity since 1943, it is felt that he is entitled to a promotion to CAF 13. I strongly recommend that Supervisor STANLEY be given such a promotion. Mr. Stanley is available for transfer wherever the Bureau has a need for him.

POSSIBLE SPECIAL AGENTS IN CHARGE

Reference is made to SAC Letter No. 27, Series 1948, dated February 17, 1948, instructing that a list of those special agents in this section who should be considered on a long range basis for development as Special Agents in Charge be submitted by March 1, 1948.

I would like to submit the names of the following supervisors for consideration under this program:

Joseph J. Casper - Mr. Casper has been assigned to the Loyalty Section less than a month. He has clearly indicated to me that he possesses all of the factors necessary to make a successful Bureau administrator. He makes a good personal appearance, is far above average in intelligence, has exercised good judgment and I believe that he is entirely adaptable to serve in any type of territory or office.

Mr. Casper has had a varied experience in the Bureau and has spent some five years in the domestic field and two years here at the seat of government. He is especially capable in handling detail work. His attitude toward the Bureau is excellent. He is willing to assume responsibility and discharges it in a capable and efficient manner. He is mature in both appearance and actions, has a pleasing personality and makes a good impression upon outsiders. It is recommended that Mr. Casper be given consideration under this program.

Ethaniel R. Johnson - Mr. Johnson has been assigned to the Loyalty Section for approximately six months. He makes a good, mature, substantial personal appearance. He is determined in his actions and manner of speech. He is above average in intelligence, exercises good judgment, has a very pleasing personality and makes a good impression on outsiders. He is available to serve in any type of territory or office of the Bureau. With more training here at the seat of government it is felt that Mr. Johnson will be well qualified for consideration under this program.

Charles H. Stanley - Mr. Stanley formerly served for approximately two years as Assistant Special Agent in Charge in the Little Rock office. In a memorandum from Mr. Wall to Mr. Ladd dated 3/20/48 submitting the names of Agents to be considered on a long range basis for development as Special Agents in Charge it was stated that Agent Stanley had served for approximately two years as ASAC in the Little Rock Office, he was well acquainted with Bureau office administration and had been assigned to the Bureau for approximately eight months which had given him a good insight into the procedures followed at the Seat of Government. He had a pleasing personality, was well liked by his fellow employees and highly respected by them, he was available to serve in any type of territory or office in the Bureau and it was recommended that he be considered under this program.

TO : MR. D. M. LADD
FROM : H. B. FLETCHER
SUBJECT:
ESPIONAGE - C

DATE: April 24, 1948

At 11:00 a.m. today, I phoned ASAC Whalen of the New York Office and furnished him contents of that portion of a petition for a writ of habeas corpus which is set out in the teletype from the Philadelphia Office. I told him that we wanted the names of all the Agents who had anything to do with the interrogation, arrest and detention of , and we wanted statements taken from them.

b6
b7C

At 12:20 p.m., Mr. Whalen called Inspector Laughlin in my absence and advised that the statement was obtained by Special Agents Charles Stanley, R. E. Trow and Chester E. Airhart on January 26, 1943. Agents Stanley and Airhart are the two Agents who took him from the courtroom to the office on January 26. The statement was actually dated January 27, 1943. was in the office from 12:45 p.m., January 26, 1943, to 5:00 p.m., January 27, 1943. During this period, he was guarded by several Agents as follows: Earl Landanoes, 6:30 p.m., January 26, 1943 to midnight; John L. Faherty, 6:30 p.m. to midnight January 26, 1943; Claude A. Bass and Lawrence E. Brown, 12:01 a.m., January 27, 1943 to 9:20 a.m., January 27; R. H. Shaw and John L. Faherty, 8:50 a.m. to 10:00 a.m. January 27, 1943. Special Agents Trow, Stanley and Airhart were with the subject questioning him from 10:00 a.m. to 1:30 p.m. Special Agent A. L. Barloga and R. L. Johnson guarded him from 1:30 p.m. to 5:00 p.m., when he was released on authority of U. S. Attorney, Eastern District of New York. Supervisor Bert Wiand and a doctor came in at 4:00 p.m. and left at 4:10 p.m.

b6
b7C

At 1:30 p.m. I called SAC McKee of the Newark Office with reference to this matter, and he stated at 3:00 p.m., when he called back, that all of this case was handled by Agents of the New York Office and the Newark Office appeared to be merely reporting record checks. I told him to check the records of the Clerk of the U. S. District Court on Monday to see if the original statement of the subject was still retained in the clerk's office. With reference to this, Mr. McKee stated the files reflected all exhibits were returned to the New York Office by the Clerk of the Court but he would check to be sure.

Special Agent Stanley states he believes Special Agent Trow was the one who introduced the statement of the subject at his trial.

At 1:15 p.m. I phoned SAC Boardman of the Philadelphia Office and told him that by Monday we could furnish him the names of all Agents and their current addresses so that they could be subpoenaed by the U. S. Attorney. I also advised him that by the date teletype summaries of the results of interviews with various Agents would be furnished to his office so that the U. S. Attorney could be advised generally as to what the various Agents can testify to.

There is attached hereto a class roll of the Supervisors that we were informed would attend the supervisor's class today. I opened the school in the Identification Building at 9:00 A. M. There were only four supervisors present, Messrs. M. C. Clements, John J. Flanigan, R. J. McHair and J. E. Newby, all from the Investigative Division. No others were present. After concluding my lecture at 9:30 I waited for several minutes and then in the absence of the next instructor began to telephone in order to arrange for the next instructor to appear before the class. By 9:55 A.M. no instructor had shown up and I dismissed the class and told them to return to their supervisory desks and cancelled this school for the rest of the day.

Re: In-Service Training

The following Special Agent Supervisors who appeared as lecturers before the In-Service Class which I recently attended impressed me as being exceptionally well versed in their respective subjects and handled their lectures and answered questions in a straightforward and very comprehensive manner.

C. H. Stanley -- Loyalty Section, Security Division

Mr. Stanley of course lectured on Loyalty and seemed to be familiar with every phase of the subject and was able to fully and completely answer all questions. His lecture was easily followed.

Carl J. Martin -- Fugitive Desk, Investigative Division

Mr. Martin was in excellent command of his subject and delivered a clear, to the point lecture, answering all questions without hesitation.

A. P. Gunsser - Chief Clerk

Mr. Gunsser gave a talk on the provisions of the Retirement Bill. I have heard numerous inquiries and considerable discussion as to the Retirement Bill, what the rights and benefits are pertaining thereto. Mr. Gunsser gave a very concise talk, dispelled any erroneous ideas anyone might have had concerning the Retirement Bill, and left no doubts in the minds of anyone as to the provisions of the same.

H. A. Page -- Training and Inspection Division

Mr. Page was a member of the In-Service Class, however, he conducted the major case problem given at Quantico. He did a very fine job, displaying an excellent knowledge of investigative techniques and Bureau rules and regulations and procedures.

Respectfully submitted,
G. A. Nease

By memorandum to Mr. Fletcher dated 1-14-49 Mr. Wall recommended that Special Agent Charles H. Stanley be afforded a meritorious increase in salary for his outstanding efforts in connection with the Loyalty Program. Mr. Ladd concurred.

Mr. Wall said Agent Stanley has been assigned to the Loyalty Section since 8-2-47 and has worked on the Loyalty Program since its inception and was instrumental in formulating policies to be followed by the Bureau in connection with this program when it first began. He was assigned to serve as #1 Man in the Section in January, 1948 and was assigned the responsibility of supervising those agents who prepared letters to the field instituting Loyalty Investigations. At one period during this program there were 76 agents being utilized for this purpose and it was Agent Stanley's responsibility to train most of these agents in the policies to be followed in opening investigations and to supervise their preparation of letters. He did an excellent job in every respect.

Mr. Wall further advised that throughout the whole time Agent Stanley had been under his supervision he has manifested an enthusiasm and interest in his work unsurpassed by any other supervisor in the Loyalty Section. He has without a doubt devoted more overtime to the performance of his duties than any other supervisor in the Section and has always been willing to accept any assignment given him and has performed these assignments in a most efficient manner. He has clearly manifested that he possesses administrative ability, is an excellent lecturer and possesses the necessary force and aggressiveness to carry out his responsibilities. It was Mr. Wall's opinion that Agent Stanley has gone far beyond the call of duty in handling his work for the past year.

The attendance register reflects that Agent Stanley worked a total of 334 hours over time in the past 6 months. For the 180 day period this would mean an average of 1 hour and 54 minutes per day.

It is noted that Agent Stanley entered on duty as a Clerk on 6-24-35 and was appointed a Special Agent on 6-26-39. He has been assigned to several Field Offices and to the Security Division since 8-2-47. He was reallocated to grade GAF 13, \$7102.20 per annum on 4-18-48 and his present salary is \$7433.20 per annum as the result of the basic increase in salaries effective 7-11-48. On 3-31-48 and 10-27-48 Mr. Wall rated him EXCELLENT. A PERMANENT BRIEF OF HIS FILE IS ATTACHED.

Dear Mr. Stanley:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Bethesda, Maryland, on January 28, 1949.

With regard to the condition for which you were afforded a surgery consultation, the specialist felt that this was nothing more than a mastitis; however, the examiner noted that you have been advised as to treatment and observation of this condition.

The electrocardiogram afforded you on February 14, 1949, and a copy of which is enclosed herewith revealed findings of no clinical significance.

The Board of Examining Physicians of the United States Naval Hospital reports that you are capable of performing strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

Sincerely yours

TO : THE DIRECTOR

DATE: September 6, 1949

FROM : D.M. LADD

SUBJECT: PERSONNEL - ADVANCEMENT

In accord with the instructions contained in SAC Letter #80, Series 1949, dated August 16, 1949, there is respectfully submitted as of this date a list of personnel assigned to the Security-Investigative Division to be considered on a long-range basis for further development as administratives and executives in the Bureau. It is realized that all personnel assigned to the Security-Investigative Division are being considered on a long-range basis for development, and at this time there are listed only those who have more clearly indicated consideration at this time for such development.

The following personnel have been eliminated for consideration at this time because they hold positions equivalent to that of Assistant Special Agent in Charge:

Joseph L. Schmit, Number One Man, Internal Security Section
William A. Branigan, Number One Man, Espionage Section

Those listed at this time are:

Mr. Johnson is a Number One Man in the Loyalty Section. He is a hard worker, especially adapted to detailed work, a clear thinker, and expresses himself effectively. He has had a limited amount of experience in the Bureau, having served in the Armed Forces during the war. Nevertheless, I feel that he has developed into a very good administrator. He has under his supervision those Agents who review loyalty reports prior to their submission to the Civil Service Commission. He is well liked by those he supervises. He makes a good personal appearance, is adaptable to working under any conditions, and I feel possesses above average intelligence. He is married, has two children, however, I do not think this would interfere in any way with his being utilized wherever the Bureau might see fit to send him. I think Mr. Johnson has excellent possibilities for a position as an ASAC at this time, and with more experience should develop into good SAC material.

GEORGE SCATTERDAY

Mr. Scatterday is presently assigned as a Supervisor in the Internal Security Section of the Security-Investigative Division. He supervises cases
